Wartime Memories Doris Evelyn Pullen,1986 *Local History and War Memories in Hokkaido* Philip A.

Seaton,2015-07-24 Hokkaido the northernmost island of Japan barely features in most histories of the Second World War However the combination of distinctive war experiences a vibrant set of local historian groups and powerful media organizations disseminating local war history has generated an identifiable set of local collective memories Hokkaido s status as an early colonial acquisition also makes the island an important vantage point from which to reassess the course and nature of the Japanese Empire This book argues that Hokkaido s experiences of war and its militarized post war constitutes a local case study with a much greater national and international significance on both theoretical and empirical grounds than first impressions might suggest Using Japanese language sources presented for the first time in English and a number of detailed local history case studies it offers a fascinating and hitherto little known perspective on the Second World War It also combines a comprehensive theory of how war memories operate at the local level within a broad historical context that explains Hokkaido s pivotal role within Japanese imperial history Demonstrating that understanding local history and memories is essential for a nuanced understanding of national history and memories the book will be highly valuable to students and scholars of Japanese history Second World War history and Asian history **The Pacific War** Christina Twomey,Ernest Koh,2014-09-15 The Pacific War is an umbrella term that refers collectively to a disparate set of wars however this book presents a strong case for considering this assemblage of conflicts as a collective singular war It highlights the genuine thematic commonalities in the legacies of war that cohere across the Asia Pacific and shows how the wars both individually and collectively wrought dramatic change to the geo political makeup of the region This book discusses the cultural political and social implications of the Pacific War and engages with debates over the war s impact legacies and continuing cultural resonances Crucially it examines the meanings and significance of the Second World War from a truly international perspective and the contributors present fascinating case studies that highlight the myriad of localised idiosyncrasies in how the Pacific War has been remembered and deployed in political contexts The chapters trace the shared legacy that the individual wars had on demographics culture and mobility across the Asia Pacific and demonstrate how in the aftermath of the war political borders were transformed and new nation states emerged The book also considers racial and sexual tensions which accompanied the arrival of both Allied and Axis personnel and their long lasting consequences as well as the impact returning veterans and the war crime trials that followed the conflict had on societies in the region In doing so it succeeds in illuminating the events and issues that unfolded in the weeks months and indeed decades after the war This interdisciplinary volume examines the aftermaths and legacies of war for individuals communities and institutions across South Southeast and East Asia Oceania and the Pacific world As such it will be welcomed by students

and scholars of Asian history modern history and cultural history as well as by those interested in issues of memory and commemoration

The Politics of War Memory and Commemoration T.G. Ashplant, Graham Dawson, Michael Roper, 2013-01-11 International in scope presents a range of case studies from a diverse range of national contexts War memory and commemoration has had an increasingly high profile in public and academic debates in recent years

War Memory and Popular Culture Michael Keren, Holger H. Herwig, 2014-01-10 This collection of essays investigates such diverse vehicles for war commemoration as poems battlefield tours souvenirs books films architectural structures comics websites and video games Drawing on essayists from Australia Canada Great Britain Israel and the United States this work explores the evolution from traditional to contemporary forms of war commemoration while addressing the fundamental question of whether these new forms of memorial are meant to encourage the remembering or the forgetting of the experience of war as well as what implications the process of commemoration may have for the continuation of the modern nation state

War Memory and East Asian Conflicts, 1930-1945 Eveline Buchheim, Jennifer Coates, 2023-06-29 This book explores how narratives exhibitions media representations and cultural heritage sites that communicate memories of conflicts in East Asia between 1930 and 1945 spread interact and are re packaged for post war audiences across national divisions The contributors examine individual case studies of grassroots engagement with war memory and collectively demonstrate the necessity of remaining aware of the researcher as participating in another kind of engagement with war memory

Contributions showcase a number of ways of doing research on war memory alongside case studies from diverse regions of the world Taken together they bring a fresh perspective to scholarship on war memory which has tended to focus on space text exhibition or personal narrative rather than bringing these elements into dialogue with one another Memories and Studies of War and Peace - War College Series Archibald Forbes, 2015-02-19 This is a curated and comprehensive collection of the most important works covering matters related to national security diplomacy defense war strategy and tactics The collection spans centuries of thought and experience and includes the latest analysis of international threats both conventional and asymmetric It also includes riveting first person accounts of historic battles and wars Some of the books in this Series are reproductions of historical works preserved by some of the leading libraries in the world As with any reproduction of a historical artifact some of these books contain missing or blurred pages poor pictures errant marks etc We believe these books are essential to this collection and the study of war and have therefore brought them back into print despite these imperfections We hope you enjoy the unmatched breadth and depth of this collection from the historical to the just published works *The Routledge Handbook of Memory Activism* Yifat Gutman, Jenny Wüstenberg, 2023-02-15 This

Handbook is the first systematic effort to map the fast growing phenomenon of memory activism and to delineate a new field of research that lies at the intersection of memory and social movement studies From Charlottesville to Cape Town from Santiago to Sydney we have recently witnessed protesters demanding that symbols of racist or colonial pasts be dismantled and that we talk about histories that have long been silenced But such events are only the most visible instances of grassroots efforts to influence the meaning of the past in the present Made up of more than 80 chapters that encapsulate the rich diversity of scholarship and practice of memory activism by assembling different disciplinary traditions methodological approaches and empirical evidence from across the globe this Handbook establishes important questions and their theoretical implications arising from the social political and economic reality of memory activism Memory activism is multifaceted takes place in a variety of settings and has diverse outcomes but it is always crucial to understanding the constitution and transformation of our societies past and present This volume will serve as a guide and establish new analytic frameworks for scholars students policymakers journalists and activists alike **The War Memories Collection** Cindy

Mist Michal A. Piegzik,2023-12-06 At the beginning of June 1942 in the wake of the enormous Japanese struggle to bring a conclusive victory in the Pacific War the Imperial Japanese Navy commenced Operation AL AL Sakusen Among the objectives of this bold plan was the 2nd Kid Butai s carrier borne strike on the American military base at Dutch Harbor and seizing part of the Aleutian Archipelago in the North Pacific Operation AL elaborated by the Navy General Staff and the Combined Fleet was an initiative that could expand the Japanese perimeter far eastwards to secure the northern approach to the home islands and prevent the potential of US Soviet military cooperation against Japan By conquering Attu and Kiska in the Aleutians the Japanese Army and Navy intended to turn them into bastions that supplied directly from the Kurile Islands would check any American advance from the north until at least the summer of 1943 The great disaster at Midway foiled the Japanese plan to create a greater defensive perimeter though ironically as a result of the same battle the Americans lacked the forces to reconquer the two lost islands A Japanese presence on US land remote on maps but seen as a natural highway to Alaska and America s back door also caused chaos among military personnel and politicians alike in Washington D C sharing the fear of an attack on the West Coast and the inability to predict Japanese intentions Volume 1 of Into the Endless Mist covers the events of Operation AL from the Japanese raid on Dutch Harbor and the invasion of Attu and Kiska to the American landing on Adak in late August 1942 and is illustrated throughout with original photographs along with the War series signature color artworks
