## **Warranting Assent:**

Warranting Assent Edward Schiappa, 1995-01-01 This book is a book about how individuals decide that arguments or excuses are valid or invalid sound or unsound strong or weak ethical or unethical with many examples and applications

**Making the Case** Kathryn M. Olson, Michael William Pfau, Benjamin Ponder, Kirt H. Wilson, 2012-11-01 In an era when the value of the humanities and qualitative inquiry has been questioned in academia and beyond Making the Case is an engaging and timely collection that brings together a veritable who's who of public address scholars to illustrate the power of case based scholarly argument and to demonstrate how critical inquiry into a specific moment speaks to general contexts and theories Providing both a theoretical framework and a wealth of historically situated texts Making the Case spans from Homeric Greece to twenty first century America The authors examine the dynamic interplay of texts and their concomitant rhetorical situations by drawing on a number of case studies including controversial constitutional arguments put forward by activists and presidents in the nineteenth century inventive economic pivots by Franklin Roosevelt and Alan Greenspan and the rhetorical trajectory and method of Barack Obama

Rhetoric in Detail Barbara Johnstone, Christopher Eisenhart, 2008 The eleven studies in this volume illustrate and advance the synthesis of discourse analysis with rhetorical studies Rhetoric in Detail shows how a variety of techniques from discourse analysis can be useful in studying such concerns as agency legitimation controversy and style and how concepts from rhetoric including genre and figuration can enrich the work of discourse analysts The authors research sites range from government commissions political speeches newspaper reports and letters to interviews and conversations in beauty salons and online Methodological overviews interspersed throughout survey critical discourse analysis interactional sociolinguistics grounded theory computer aided corpus analysis narrative analysis and participant observation and provide suggestions for further reading Rhetoric in Detail is an invaluable source for rhetoricians looking for systematic grounded ways of approaching new more vernacular sites for rhetorical discourse and for discourse analysts interested in seeing what they can learn from the tradition and practice of rhetorical analysis

**Word and World** Patricia Hanna, Bernard Harrison, 2004 This important book proposes a new account of the nature of language founded upon an original interpretation of Wittgenstein The authors deny the existence of a direct referential relationship between words and things Rather the link between language and world is a two stage one in which meaning is used and in which a natural language should be understood as fundamentally a collection of socially devised and maintained practices Arguing against the philosophical mainstream descending from Frege and Russell to Quine Davidson Dummett McDowell Evans Putnam Kripke and others the authors demonstrate that discarding the notion of reference does not entail relativism or semantic nihilism A provocative re examination of the interrelations of language and social practice this book will interest not only philosophers of language but also linguists psycholinguists students of communication and all those concerned with the nature and acquisition of human linguistic capacities
