Watch Out! Near Water Claire Llewellyn,2006 Teaches children the different ways to keep safe when in or near the water

Safety Around Water MaryLee Knowlton,2008-08-15 Even a shallow pool can be dangerous if you don t take care

Important lessons of water safety are made easy and accessible in *Safety Around Water* **Watch Out!** Alfred Ojwang,2004

Near Water Hugh Hood,2000 *Near Water* is the final volume in Hugh Hood s spectacular New Age series an epic saga that is already treasured and revered as a meticulous chronicle of the late 20th and early 21st centuries Beginning with an almost stream of consciousness meditation on identity religion angels Dionysius Aristotle Freud and you name it Hugh Hood s prose scintillates in *Near Water* animating a kinetic imagination that never misses a beat Son of a Nobel laureate father of a space voyager friend of a movie star estranged husband of a painter and semi famous because of it all Matthew Goderich is driving up to the lake for a possible reunion with Edie from whom he has been separated for 30 years Then it happens and we feel it happening too the pain the delusions the awful sudden interior crisis of a cerebrovascular accident A stroke And we stay with him this self proclaimed hope man who is never alone while his mind roves over the vivid details of the life he has loved at this place near water *Watch Out! on the Road* Claire Llewellyn,2006 Simple text and illustrations teach children

and adults how to be safe when on and near the road **Look Out** Claire Llewellyn,2007-08-23 This is one in a series of titles alerting youngsters to the various hazards around the home and outdoors Humorous illustrations complement clear thoughtful text Helpful notes are included for adults to get the most out of the book This title focuses on safety issues near water *You Better Watch Out* Greg Malone,2010-01-12 It is I contend no small achievement to survive the perfect family

So Greg Malone says at the beginning of a graceful generous and sometimes hilarious memoir of his childhood in the St John s of the 1950s and 60s A memoir from one of Canada s comic geniuses that is as moving as it is funny about a young boy who survives among other things a school run by the Christian Brothers encounters with the bullies of New Gower Street and the perfect family We first meet Greg harnessed to a bush at a picnic wearing underpants on his head a small boy squalling because he can t take part in the goings on From here Greg takes us on a wild ride through the streets of old St John s We meet luminaries along the way even Danny Williams the future premier sourly playing St Bernadette in the all boys play with Greg hardly concealing his joy in performing as her chatty sister Humble poignant funny and authentic this is a delightful first book from a natural storyteller Excerpt I loved Barbara Lynn Her sunny face was slightly freckled She had blue eyes and her straight caramel blonde hair was pulled back and tied with a ribbon showing her high smooth forehead She had even regular features and a smile that showed her perfect white teeth We played house every day for endless summers and into

the long winter nights when she would take her big brother Basil's long toboggan without asking so the two of us could go sliding together down over the hill under the pole light across St Clare Ave and down into the Knights of Columbus field where the full moon glittered on the glazed snow and the toboggan would fly along forever on the longest slide we'd ever had

Whitmore, 2015-09-01 Climate change has arrived and it's not going away In the absence of effective world action global warming is certain to continue The Handbook is not another book about climate change science or politics Rather it is an intelligent guide and a potential ground breaker for all of us who feel helpless in the face of government disagreement and want to know in a practical way what we can do now Not only will The Handbook help you prepare for increased droughts floods fires and heatwaves it will provide you with stories and advice from individuals who are already quietly doing amazing things Jane Rawson and James Whitmore previously Environment editors for The Conversation look at how to establish your risk and face your fears where to live and with whom and how to survive heat fire and flood They investigate ways to provide your own food power and water make sure you can still get around and get rid of your waste and sewage They talk about new ways to think about home and possessions the sadness of living through climate change and how for both individual and common good we might positively change the way we live The Handbook is both practical and philosophical It can be read cover to cover or dipped into when you need specific advice It can help you plan and execute a strategy to deal with the effects of climate change It might change your life But it should also make you ask does it really have to be this way
