Canadian Expeditionary Force, 1914-1919 G.W.L. Nicholson, 2015-12-16 Colonel G W L Nicholson's Canadian Expeditionary Force 1914-1919 was first published by the Department of National Defence in 1962 as the official history of the Canadian Army's involvement in the First World War. Immediately after the war ended, Colonel A Fortescue Duguid made a first attempt to write an official history of the war but the ill-fated project produced only the first of an anticipated eight volumes. Decades later, G W L Nicholson, already the author of an official history of the Second World War, was commissioned to write a new official history of the First World War. Illustrated with numerous photographs and full colour maps, Nicholson's text offers an authoritative account of the war effort while also discussing politics on the home front including debates around conscription in 1917. With a new critical introduction by Mark Osborne Humphries that traces the development of Nicholson's text and analyzes its legacy, Canadian Expeditionary Force 1914-1919 is an essential resource for both professional historians and military history enthusiasts.

Industrial Organization in Canada Zhiqi Chen, Marc Duhamel, 2011-02-08 Industrial policy is a vital and important field that contributes to decisions about public policy and business and is directly responsible for promoting growth and increasing competitiveness in local and global economies. Examining the most significant industrial policy issues in Canada, Industrial Organization in Canada presents contributions from the top Canadian researchers in this field who survey both new directions in the field and areas that have been neglected but remain important. Using state-of-the-art empirical techniques, contributors address the policy challenges raised by globalization, the internet, and other technological advances, innovation, and the rise of security measures in response to the 9/11 terrorist attacks. Chapters are organized around five themes: recent developments and policy challenges; Canadian firms in the information age; research and development; innovation, regulation, and industrial performance; and securing trade and investment opportunities. The only substantive research volume on this subject in two decades, Industrial Organization in Canada is a welcome resource for policy makers, researchers, and academics concerned with industrial policy issues in contemporary Canada.
