**E Durkheim**

## **Waterways In Europe:**

**Inland Waterways of Europe** Roger Calvert,1963

**Rivers in History** Christof Mauch,Thomas G. Zeller,2008-07-27

Throughout history rivers have run a wide course through human temporal and spiritual experience They have demarcated mythological worlds framed the cradle of Western civilization and served as physical and psychological boundaries among nations Rivers have become a crux of transportation industry and commerce They have been loved as nurturing providers nationalist symbols and the source of romantic lore but also loathed as sites of conflict and natural disaster Rivers in History presents one of the first comparative histories of rivers on the continents of Europe and North America in the modern age The contributors examine the impact of rivers on humans and conversely the impact of humans on rivers They view this dynamic relationship through political cultural industrial social and ecological perspectives in national and transnational settings As integral sources of food and water local and international transportation recreation and aesthetic beauty rivers have dictated where cities have risen and in times of flooding drought and war where they ve fallen Modern Western civilizations have sought to control rivers by channeling them for irrigation raising and lowering them in canal systems and damming them for power generation Contributors analyze the regional national and international politicization of rivers the use and treatment of waterways in urban versus rural environments and the increasing role of international commissions in ecological and commercial legislation for the protection of river resources Case studies include the Seine in Paris the Mississippi the Volga the Rhine and the rivers of Pittsburgh Rivers in History is a broad environmental history of waterways that makes a major contribution to the study preservation and continued sustainability of rivers as vital lifelines of Western culture

### **Introduction to the European Inland Waterways**

Gordon Knight,2024-02-16 Several hundred boat owners take to the inland waterways of Europe every year either for a change of cruising ground a shortcut to the Med or Baltic or simply as a retreat from the rigours of sea sailing with advancing years However sources of information are scarce to answer such key questions as What s it like Where are the best places Do you need qualifications Are there rules and regulations What sort of boat is suitable What preparations are required Where can I go for maps and guides and further information This new guide is designed to provide all the information needed to embark on the continental inland waterways Written by members of the Cruising Association s European Inland Waterways Section EIWS and edited by Gordon Knight the guide is aimed at both yacht and motor boat owners and includes advice on choosing or adapting a boat the qualifications needed preparing a boat to tackle the rivers canals and locks navigating safely obtaining supplies and coping with communications and transport Separate chapters on the four main cruising countries France Belgium Germany and The Netherlands describe the principal inland cruising routes and their attractions and list numerous additional sources of information from official bodies and tourist organisations plus useful free apps to supplement them Finally it provides a brief taster of the attractions to be discovered further afield in countries such as Poland Sweden and Norway It also includes a 20 per cent discount offer

on first year s membership for purchasers joining the CA online during the year
