information on Middleware 98 IFIP International Conference on Distributed Systems Platforms and Open Distributed Processing 15-18 September 1998 link to **The European Union and the Regulation of Media Markets** Alison Harcourt, 2005 National broadcasting and press regulation is undergoing a process of convergence in Europe. This book, newly available in paperback, explains how this process has been shaped by the actions of the European Union. EU institutions, Alison Harcourt observes, whilst communications is one of the EU's most successful policy areas, European decision-making is eroding the national capacity to regulate for the public interest. European level efforts to protect public interest goals have been constrained by the European Treaties. The author argues that increased European coordination in public interest regulation could be more conducive to growth and competitiveness than the dismantling of existing national laws. This, however, would require changes to the political composition of the European Union. This book assesses the potential EU media regulation provides for market growth and the protection of media pluralism, the citizen and ultimately democracy itself. These opportunities are presented in the coming decade with the developing European Constitution, EU enlargement and the implementation and revision of European regulation. *Bowker's Complete Video Directory*, 2000 *Entertainment for Education. Digital Techniques and Systems* Xiaopeng Zhang, Shaochun Zhong, Zhigeng Pan, Ruwei Yun, 2010-08-12 With the technical advancement of digital media and the medium of communication in recent years, there is a widespread interest in digital entertainment. An emerging technical research area, edutainment or educational entertainment, has been accepted as education using digital entertainment. Edutainment has been recognized as an effective way of learning using modern digital media tools like computers, games, mobile phones, televisions or other virtual reality applications which emphasize the use of entertainment with application to the education domain. The Edutainment conference series was established in 2006 and subsequently organized as a special event for researchers working in this new interest area of e-learning and digital entertainment. The main purpose of Edutainment conferences is to facilitate the discussion, presentation and information exchange of the scientific and technological development in the new community. The Edutainment conference series becomes a valuable opportunity for researchers, engineers and graduate students to communicate at these international annual events. The conference series includes plenary invited talks, workshops, tutorials, paper presentation tracks and panel discussions. The Edutainment conference series was initiated in Hangzhou, China in 2006. Following the success of the first event, the second Edutainment 2007 in Hong Kong, China, third Edutainment 2008 in Nanjing, China, and fourth editions Edutainment 2009 in Banff, Canada, were organized. Edutainment 2010 was held during August 16-18, 2010 in Changchun, China. Two workshops were jointly organized together with Edutainment 2010. **In Your Face**, 1996 *The Multimedia and CD-ROM Directory*, 1998 **A Tactical Guide to Science Journalism** Deborah Blum, Ashley Smart, Tom Zeller Jr., 2022 A Tactical Guide to Science Journalism brings together award-winning journalists from around the world to share fascinating tales of science and how it works and to provide guidance into reporting specialties like infectious disease, climate change, astronomy, public
