Wellprotected Domains:

The Well-protected Domains Selim Deringil, 1998-12-31 How did the late Ottoman Empire grapple with the challenge of modernity and survive Rejecting explanations based on the concept of an Islamic empire or the tired paradigm of the Eastern Question the author argues that far richer insights can be gained by focusing on imperial ideology and drawing out the striking similarities between the Ottoman and other late legitimist empires like Russia Austria and Japan **Osman's Dream** Caroline Finkel, 2012-07-19 The Ottoman chronicles recount that the first sultan Osman dreamt of the dynasty he would found a tree fully formed emerged from his navel symbolising the vigour of his successors and the extent of their domains This is the first book to tell the full story of the Ottoman dynasty that for six centuries held sway over territories stretching at their greatest from Hungary to the Persian Gulf and from North Africa to the Caucasus Understanding the realization of Osman s vision is essential for anyone who seeks to understand the modern world *Paradoxes of Peace in Nineteenth Century Europe* Thomas Hippler, Miloš Vec, 2015-02-19 Peace is often simplistically assumed to be war s opposite and as such is not examined closely or critically idealized in the literature of peace studies its crucial role in the justification of war is often overlooked Starting from a critical view that the value of restoring peace or keeping peace is and has been regularly used as a pretext for military intervention this book traces the conceptual history of peace in nineteenth century legal and political practice It explores the role of the value of peace in shaping the public rhetoric and legitimizing action in general international relations international law international trade colonialism and armed conflict Departing from the assumption that there is no peace as such nor can there be it examines the contradictory visions of peace that arise from conflict These conflicting and antagonistic visions of peace are each linked to a set of motivations and interests as well as to a certain vision of legitimacy within the international realm Each of them inevitably conveys the image of a specific enemy that has to be crushed in order to peace being installed This book highlights the contradictions and paradoxes in nineteenth century discourses and practices of peace particularly in Europe *Spatial Politics in Istanbul* Philip Dorroll, Courtney Dorroll, 2023-09-29 Over the past decade the AKP under the leadership of Recep Tayyip Erdogan has decisively turned Turkish politics in the direction of conservative Islamic national identity A specific ideological framework undergirded the AKP s conception of the built environment the plans it implemented to transform it and the forms of resistance that these plans generated This framework is termed Erdoganian Neo Ottomanism and describes AKP s use of the power of the state to shape public surroundings in their social and ideological image By utilising an interdisciplinary approach that incorporates religion politics and space Courtenay Dorroll and Philip Dorroll focus on the role of the Turkish state under the AKP in the restoration of traditional Islamic and Neo Ottoman imagery and iconography This book explores the momentous shifts in power during this crucial decade in Turkish history through an analysis of four case studies The 2010 designation of Istanbul as the European Capital of Culture the 2013 Gezi Park protests the Monument to the Martyrs of July 15 and associated

memorial practices related to the 2016 coup attempt and the transition of Hagia Sophia from museum to mosque in 2020 these are identified as the most prominent ways in which the AKP has restructured public spaces in Istanbul to reflect its values The authors scrutinise this phenomenon and intentional transformation of the physical landscape through an accessible but interpretive method that uncovers issues crucial to understanding Turkey's most recent history
