Measuring Innovation in OECD and Non-OECD Countries William Blankley, 2006 It is widely accepted that innovation is key to economic growth Countries where research and innovation are high on the national agenda are best suited to prosper in the knowledge based economy Conversely countries whose economies are mainly dependent on natural resources and basic industries tend to lack competitiveness and flexibility in adapting to changing global trends The Organisation for Economic Co operation and Development OECD has long been concerned with the measurement of research and experimental development R D and innovation activities Under apartheid rule South Africa was barred from participating in OECD activities Shortly after the advent of democracy in South Africa in 1994 the then Department of Arts Culture Science and Technology now the Department of Science and Technology initiated the process of applying for observer status on the OECD Committee for Scientific and Technological Policy South Africa gained observer status in 1998 In March 2001 the Department and the OECD jointly hosted an international seminar in Pretoria on the measurement of innovation activities in OECD and non OECD countries This book is a collection of selected papers that were presented at the seminar by leading international and South African experts in innovation measurement The chapters reflect various aspects of the measurement of innovation and how these measurements are applied in different countries The volume contributes to the debate that exists between developing and developed countries on their approaches to the measurement of innovation **World**

Development Indicators 2011 World Bank, 2011 World Development Indicators WDI is the World Bank's annual compilation of data about development. This statistical work allows readers to consult over 800 indicators for more than 150 economies and 14 country groups in more than 90 tables. It provides a current overview of regional data and income group analysis in six thematic sections: World View, People, Environment, Economy, States and Markets, and Global Links. This book presents current and accurate development data on both a national level and aggregated globally. It allows readers to monitor the progress made toward meeting the Millennium Development Goals endorsed by the United Nations and its member countries, the World Bank, and a host of partner organizations. These goals, which focus on development and the elimination of poverty, serve as the agenda for international development efforts. The CD-ROM contains time series data for more than 200 economies from 1960-2009, single year observations, and spreadsheets on many topics. It contains more than 1,000 country tables and the text from the WDI 2010 print edition. The Windows-based format permits users to search for and retrieve data in spreadsheet form, create maps and charts, and fully download them into other software programs for study or presentation purposes.

Cross-Border Exposures and Country Risk Thomas Krayenbuehl, 2001-07-03. The international financial system has come under strain several times in recent years, and analysis has shown that most crises originated from the risks built into cross-border exposures. Assessment and monitoring of cross-border exposures and country risk are essential activities for international lending agencies such as government bodies, banks, multinational corporations, and other investors. Inadequate risk management could have a destabilising effect on both lender and borrower and could result in a major international financial crisis. This completely revised edition of Thomas E. Krayenbuehl's classic handbook clearly shows how the various players can quantify and manage the complex factors involved in order to minimise the risk and avoid potentially catastrophic consequences. It provides both a rigorous analysis of the current situation and a guide to meeting the challenges of the future. Just some of the things you'll discover: How to succeed in cross-border lending and investment through good assessment, monitoring, and hedging of country risk; How the Tequila and Asian crises came about and the lessons learned; The likelihood of future crises and the potential causes; The latest problems to beset the international financial system; The recent developments in cross-border financing; Why the problem of contagion occurs between seemingly unrelated markets; The enormous need for global capital to bring about sustainable economic development in the developing world and the role of the major players in fulfilling it; The numerous factors that constitute and influence a specific country risk; The responsibilities of all the parties involved, from the IMF and the World Bank to the industrialised and developing nations, the regulators, and the rating agencies; How this study helps you. This lucid and authoritative handbook will help you to understand the problems facing the international financial system; Identify and assess new investment opportunities; Optimise risk composition of cross-border lending or investment; Make sound decisions, minimise risk, and achieve better outcomes. The definitive study of this important topic: its purpose, practice, and implications. *World development report*

1978-1999/2000[,2000-10-01 The Little Green Data Book 2000 World Bank,2000 **Middle Power Statecraft** Jonathan H. Ping,2017-11-30 Jonathan Ping s volume establishes a unifying theory for the concept of middle power MP MPs are states which have an innate form of statecraft and perceived power as a result of their size The book presents hybridization theory as a basis for analysis policy development and prediction of MP statecraft and perceived power A prerequisite to the founding of hybridization theory is the new statistical method of definition which identifies sixteen MPs of Asia and the Pacific The volume takes a comparative focus on Indonesia and Malaysia to inform and test hybridization theory as well as to provide a historical analysis of Southeast Asia from a statecraft and perceived power perspective It offers researchers and scholars of international relations and international political economy a theory that can be applied to the practical study of all middle sized states while middle sized states can apply the same theory to enhance their own ability to re create their state

World Development Indicators Banco Mundial,1997 **China and the Knowledge Economy** Carl J.

Dahlman,Jean-Eric Aubert,2001 Annotation Argues that in order to address the growing economic social and political pressures of the 21st Century China will have to build solid foundations for a knowledge based economy by updating the economic and institutional regime upgrading education and learning and building information infrastructure **Democracy** Svante Ersson,Jan-Erik Lane,2013-04-15 What is democracy Under what conditions does it thrive What are the consequences of democracy This book aims to answer these questions and more by exploring different varieties of democracies around the world It starts with definitions of democracy and then divides the concept into three dimensions which provide a framework for the study of democracy in all its forms These dimensions form the three main sections of the book constitutional democracy which explores political rights participatory democracy which focuses on participation of citizens egalitarian democracy which examines outcomes of democracy in terms of equality Democracy concludes by surveying the findings of this empirical study and a discussion on the meanings and consequences of democracy in a globalizing world *Failed Transition, Bleak Future?* Hooman Peimani,2002-04-30 Peimani challenges the practical indifference of many Western and non Western countries with interests in Central Asia and the Caucasus to their plight Independence in 1991 suddenly worsened all the economic and social problems of the countries of the Caucasus Azerbaijan Armenia and Georgia and Central Asia Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan Their failure to address their numerous economic problems and to develop their economies has created a suitable ground for the rise of social and political popular dissent including ethnic conflicts in all these multi ethnic countries Concerned about the stability of their political systems their ruling elites have all opted for authoritarianism The prevailing intolerance of dissent and the suppression of opposition political parties have paved the way for the emergence of anti government extremist ideologies and political groups The domestic situation has become ripe for the rise of violent political activities and ethnic conflicts with a great possibility for their escalation to civil wars The ethnic structure of both the Caucasus and Central Asia makes their development into inter

state wars a strong possibility The unsettled ethnic and territorial conflicts within and between countries which turned into wars in the early 1990s could easily re emerge There is a potential for the further escalation of military conflicts in those regions because of the intentional or unintentional intervention of Iran China Turkey Russia and the United States which have long term interests in the two regions Given the geographical characteristics of the Caucasus and Central Asia as a link between Asia and Europe war and instability in those regions could destabilize the two continents hosting six declared nuclear powers Of particular interest to scholars and other researchers involved with Eurasian Central Asian and Caucasian countries
