will be essential to breathe new life into the partnership between industrialized and developing countries It will be equally essential to combine poverty reduction with environmental protection in an integrated policy structure spanning all levels from local to global In this report the German Advisory Council on Global Change WBGU shows that global environmental policy is a prerequisite for global poverty reduction WBGU analyses the relevant policy processes and delivers recommendations charting the way forward With its interdisciplinary approach providing a complex and systematic analysis of the poverty environment nexus WBGU s latest report breaks new ground Indira Gandhi s old convenient maxim was Poverty is the biggest polluter Put forward at the 1972 UN Conference on the Human Environment in Stockholm it has been sorely misused ever since to override environmental precaution and prioritize economic development strategies instead The new WBGU report maps out a way to shape a coherent environment and development policy This report revitalizes the Rio spirit and gives it a robust scientific base Prof Dr Ernst Ulrich von Weizsäcker Member of the German Bundestag MdB

External Relations Dept.,2003-08-22 This paper highlights that the Washington Consensus helped fill the need for an economic policy framework following the discrediting of central planning and import substitution trade strategies Latin American governments championed the Consensus in the early 1990s and the policy agenda delivered some of the things it was supposed to healthier budgets lower inflation lower external debt ratios and economic growth But unemployment rose in many countries and poverty remained widespread while the emphasis on market openness made states vulnerable to the side effects of globalization *Human Development Report ,2002* *Making Services Work for Poor People ,2003* Too often services fail poor people in access in quality and in affordability But the fact that there are striking examples where basic services such as water sanitation health education and electricity do work for poor people means that governments and citizens can do a better job of providing them Learning from success and understanding the sources of failure this year s World Development Report argues that services can be improved by putting poor people at the center of service provision How By enabling the poor to monitor and discipline service providers by amplifying their voice in policymaking and by strengthening the incentives for providers to serve the poor Freedom from illness and freedom from illiteracy are two of the most important ways poor people can escape from poverty To achieve these goals economic growth and financial resources are of course necessary but they are not enough The World Development Report provides a practical framework for making the services that contribute to human development work for poor people With this framework citizens governments and donors can take action and accelerate progress toward the common objective of poverty reduction as specified in the Millennium Development Goals *Encyclopedia of the Global Economy: List of entries* David Edward O'Connor,2006 Examines the concepts people and organizations related to economic globalization from the sixteenth century to the present and features over 150 alphabetically arranged entries and primary documents on topics including international trade outsourcing and child labor *Gender Differences in Retirement Incentives* Jeungkun Kim,2008 *The Stockholm Journal of East Asian Studies ,2006* *Trends and Challenges in Public Administration Reform in Asia and the Pacific ,2005* *EFA Global Monitoring Report ,2009* **Creating Value for All ,2008** The extreme prevalence of poverty in today s world calls us urgently for action Yet the poor harbour a potential for consumption production innovation and entrepreneurial activity that is largely untapped This report shows how entrepreneurs can serve the poor as clients and customers and can also include the poor as producers employees and business owners The report s main message Business with the poor can create value for all The publication draws on 50 specially commissioned case studies of businesses that have successfully included the poor despite the constraints and created value for all The cases afford the wealth of ideas for inclusive business models

**Sub-regional Statistics and Analysis ,2006** Dakar 6 is the first intermediary report to be published by the UNESCO Regional Office for Education in Africa BREDA It centers on statistics as will all the intermediary report **Regional Development Dialogue ,2013** *World Survey on the Role of Women in Development* United Nations

Publications,2015-06-30 Ensuring women s economic empowerment and access to and control over resources requires an integrated approach to growth and development focused on gender responsive employment promotion and informed by the interdependency between economic and social development Social objectives need to be incorporated into economic policies Economic growth strategies should give attention to the real economy and focus on creating a gender sensitive macroeconomic environment full employment and decent work access to land property and other productive resources as well as financial services and full coverage of social protection measures The Survey outlines a number of concrete recommendations in these critical areas which if adopted will facilitate women s equitable access to and control over economic and financial resources
