**The Representation of Science and Scientists on Postage Stamps** Christopher B. Yardley,2015-02-09 For approaching two centuries the images on postage stamps have been used to convey messages from the government of the day to the general public Science has been used to enhance those messages for the past nine decades In this book I explore the ways in which science and scientists have been portrayed on stamps and look at the ideas and in some cases the propaganda that underpins them Page 1

[Inventing the Mathematician](#) Sara N. Hottinger,2016-03-01 Where and how do we as a culture get our ideas about mathematics and about who can engage with mathematical knowledge Sara N Hottinger uses a cultural studies approach to address how our ideas about mathematics shape our individual and cultural relationship to the field She considers four locations in which representations of mathematics contribute to our cultural understanding of mathematics mathematics textbooks the history of mathematics portraits of mathematicians and the field of ethnomathematics Hottinger examines how these discourses shape mathematical subjectivity by limiting the way some groups including women and people of color are able to see themselves as practitioners of math Inventing the Mathematician provides a blueprint for how to engage in a deconstructive project revealing the limited and problematic nature of the normative construction of mathematical subjectivity
