Williamson F. Evers, Herbert J. Walberg, 2013-11-01 This book takes a hard look at the professional technical and public policy issues surrounding student achievement and teacher effectiveness and shows how testing and accountability can play a vital role in improving American schools **Evaluating Teaching Effectiveness**

Larry A. Braskamp, Dale C. Brandenburg, John C. Ory, 1984-10-01 Evaluating Teaching Effectiveness is a practical guide intended to assist faculty members and educational administrators in the critical analysis design and implementation of teaching practice evaluation Evaluation of teaching should be assessed from a variety of perspectives since no single piece of evidence collected from one source is sufficient to judge the competence of a teacher This view is based on testing and experimenting carried out by the authors on their own campuses for application on any campus or college In order to evaluate teacher effectiveness it also important to take the purpose of the evaluation into account **Linking Teacher**

**Evaluation and Student Learning** Pamela D. Tucker, James H. Stronge, 2005-04-15 In Linking Teacher Evaluation and Student Learning researchers Pamela D Tucker and James H Stronge show that including measures of student achievement in teacher evaluations can help schools focus their efforts to meet higher standards You ll see how four school systems have built such measures into their evaluation programs in these distinct ways Documenting how desired learning outcomes translated into actual student learning Tracking progress on key content standards Setting annual quantifiable goals for students academic progress Analyzing changes in students achievement test scores The authors explore the strengths of each approach offer insights from teachers and administrators and describe practical ways to incorporate similar measures of student learning into your own evaluation program Detailed appendixes provide hands on tools and resources to help you adapt these approaches to your school s particular needs For any school that is working to meet higher standards linking teacher evaluation to measures of student learning is a powerful way to refocus professional development and improve student achievement Teacher Evaluation and Student Achievement

James H. Stronge, Pamela D. Tucker, 2000 This book discusses four approaches to incorporating student achievement in teacher evaluation Seven chapters discuss 1 Teacher Evaluation and Student Achievement An Introduction to the Issues 2 What is the Relationship between Teaching and Learning e g whether teachers are responsible for student learning and how to measure student learning 3 Assessing

Teacher Performance through Comparative Student Growth The Dallas Value Added Accountability System 4 Assessing Teacher Performance through Repeated Measures of Student Gains The Tennessee Value Added Assessment System 5 Assessing Teacher Performance with Student Work The Oregon Teacher Work Sample Methodology 6 Assessing Teacher Performance in a Standards Based Environment The Thompson Colorado School District and 7 Teacher Evaluation and Student Achievement What are the Lessons Learned and Where Do We Go from Here e g basic requirements of fair testing programs that are to be used to inform teacher evaluation Chapters 3 6 include information on the purposes of the accountability system and how it was developed student assessment strategies how the accountability system works how the accountability system relates to teacher evaluation the advantages and disadvantages of the accountability system for teacher evaluation and results of implementation Contains 66 references SM Evaluating and Improving Undergraduate Teaching in Science, Technology, Engineering, and Mathematics National Research Council, Division of Behavioral and Social Sciences and Education, Center for Education, Committee on Recognizing, Evaluating, Rewarding, and Developing Excellence in Teaching of Undergraduate Science, Mathematics, Engineering, and Technology, 2002-12-19 Economic academic and social forces are causing undergraduate schools to start a fresh examination of teaching effectiveness Administrators face the complex task of developing equitable predictable ways to evaluate encourage and reward good teaching in science math engineering and technology Evaluating and Improving Undergraduate Teaching in Science Technology Engineering and Mathematics offers a vision for systematic evaluation of teaching practices and academic programs with recommendations to the various stakeholders in higher education about how to achieve change What is good undergraduate teaching This book discusses how to evaluate undergraduate teaching of science mathematics engineering and technology and what characterizes effective teaching in these fields Why has it been difficult for colleges and universities to address the question of teaching effectiveness The committee explores the implications of differences between the research and teaching cultures and how practices in rewarding researchers could be transferred to the teaching enterprise How should administrators approach the evaluation of individual faculty members And how should evaluation results be used The committee discusses methodologies offers practical guidelines and points out pitfalls Evaluating and Improving Undergraduate Teaching in Science Technology Engineering and Mathematics provides a blueprint for institutions ready to build effective evaluation programs for teaching in science fields *Teacher Evaluation That Makes a Difference* Robert J. Marzano, Michael D. Toth, 2013-06-14 In this essential new book best selling author and researcher Robert J Marzano and teacher effectiveness expert Michael D Toth lay out a framework for the next generation of teacher evaluation a model focused primarily on helping educators develop and improve their practice By taking into account multiple accurate data rich measures of teacher performance and student growth the model ensures that all teachers receive fair meaningful and reliable evaluations The book includes Standards rubrics and suggested rating methodologies A detailed five phase plan for implementing the model

Guidelines for calibrating evaluation criteria according to teachers experience levels A step by step guide to creating a coaching program for teachers who require intervention and Recommendations for using technology platforms to enable teacher collaboration Teacher evaluation has too often focused on affixing ratings to teachers rather than helping them grow into mastery The practical field tested model proposed in Teacher Evaluation That Makes a Difference has everything your school or district needs to provide teachers and by extension their students with the support necessary for success

Grading Teachers, Grading Schools Jason Millman,1997-08-15 In an extensive review of teacher and school evaluation one is not likely to find an issue more divisive than the question of how best in high stakes contexts to evaluate how well teachers and schools accomplish their task of educating students This book explores four contemporary approaches to evaluating the effectiveness of teachers and schools     **Understanding Student Evaluations of Teaching Effectiveness**
