Tobacco Goes to College Elizabeth Crisp Crawford, 2014-03-13 This is the first book to document the history of cigarette advertising on college and university campuses From the 1920s to the 1960s such advertisers had a strong financial grip on student media and thus a degree of financial power over colleges and universities across the nation The tobacco industry's strength was so great many doubted whether student newspapers and other campus media could survive without them When the Tobacco Institute the organization that governed the industry decided to pull their advertising in June of 1963 nearly 2 000 student publications needed to recover up to 50 percent of their newly lost revenue Although student newspapers are the main focus of this book tobacco's presence on campus permeated more than just the student paper Cigarette brands were promoted at football games on campus radio and through campus representatives and promotional items were placed on campus in locations such as university stores and the student union

A Birdwatchers' Guide to Morocco Patrick Bergier, Fédora Bergier, 2003 Morocco is a paradise for birdwatchers with its coasts islands wadis plains forests mountains and deserts creating conditions that are often very different from those found in Europe The richness of these habitats is clearly illustrated by the 452 species which have been recorded so far Fifteen years have passed since the publication of the first edition of this book This is a very short period in the dynamics of bird communities but a very long period in a country that has developed so quickly The Government is encouraging development

and tourism for example in the Atlantic West Sahara which opens up great new sites for birdwatchers The most important and easily accessible of these new sites have been included in this second edition and the original 15 sites have been increased to at least 50
