## Wayside Tavern:

**Accommodating the Republic** Kirsten E. Wood, 2023-11-08 People have gathered in public drinking places to drink, relax, socialize, and do business for hundreds of years. For just as long, critics have described taverns and similar drinking establishments as sources of individual ruin and public disorder. Examining these dynamics as Americans surged westward in the early nineteenth century, Kirsten E. Wood argues that entrepreneurial, improvement-minded men integrated many village and town taverns into the nation's rapidly developing transportation network and used tavern spaces and networks to raise capital, promote innovative businesses, practice genteel sociability, and rally support for favored causes, often while drinking the staggering amounts of alcohol for which the period is justly famous. White men's unrivaled freedom to use taverns for their own pursuits of happiness gave everyday significance to citizenship in the early republic. Yet white men did not have taverns to themselves. Sharing tavern spaces with other Americans intensified white men's struggles to define what and for whom taverns should be. At the same time, temperance and other reform movements increasingly divided white men along lines of party conscience and class. In both conflicts, some improvement-minded white men found common cause with middle-class white women and Black activists who had their own stake in rethinking taverns and citizenship.

**Altamont** Keith C. Lee, 2014 Located on the western edge of the sprawling Van Rensselaer patent, the village of Altamont was originally called Knowersville. It first gained prominence as a stopping-off place for early travelers struggling along trails from the Hudson River to the Schoharie Valley. As time passed, roads improved and commerce grew. Once the railroad arrived in 1863, the trip from Albany took just 45 minutes, and travelers quickly embraced the beauty of the Helderberg escarpment. A commercial center including hotels, shops, and small manufacturers grew quickly around the new train station, and well-to-do Albanians seeking respite from city heat bought property for summer mansions on the hillside above the village. The Altamont Fair supported local agriculture and brought in visitors from around the world. Altamont reveals the beginnings of this little village under the Helderbergs.

**Tavern Signs of America** Helene Smith, 1989 Only comprehensive book on subject. The history of America reflected on tavern signs advertising the town centers before there were courthouses, schools, community centers, and restaurants. A window view of what tavern life was like back when political issues were settled around a tavern table and cock fights and public hangings were the entertainment of the day in a so-called less-violent era, the good old days.
