

HOW TO PAINT WARHAMMER

Painting miniatures is one of the most satisfying parts of the Warhammer hobby. Your skills will find your skills start to grow with practice, and soon you'll know your miniatures to life.

Make sure the lid of your chosen paint is firmly shut and give it a quick shake.

Shaking should be done for all Citadel paints before you use them.

Before you dip your brush into the paint, wet the bristles first.

Citadel paints are designed to be watered down a little so paint will go onto the model more smoothly.

Don't forget to wash your brush thoroughly between each colour you use.

Keeping the paint out of the bristles keeps your colours clean and preserves the brush.

Using a dedicated brush, palette, and small amount of paint will allow multiple group members to easily share paint.

Using a palette will allow multiple group members to easily share paint.

Paint your chosen colours onto the model.

Start with the colour that covers the biggest area first.

Let each colour dry before you move on to the next.

After all of the areas are painted, finish the model by tidying up any sections as required.

It's OK to go back and neaten up areas that you think you can improve.

FIND OUT MORE

The Citadel paint range has all the colours that you need, and the Citadel Colour app and website have all the information. There's advice on colours, painting guides, tips on special effects, and more.
