Time And Destiny:

The Concept of Time and Historical Experience Mihai Popa,2023-09-26 This book is focused on the question does the event from which we extract historical experience acquire this status at the moment it occurs or later as it is remembered through the generations Historical experience is not a concept that facilitates the ascent of the historian to the fact it is closely related to the fact This does not make it easier to handle because the fact itself is retractable it hides its social cultural essence and meaning in time The present of the historian narrator restores as in an incessant change of perspective the diachrony of the fact looking for the present of the past fact The experience suddenly becomes a relationship between two temporal actualities that seek their own cultural identity From this perspective history moves with us The weight of the conceptualization of a past reality is given by the comprehensive weight impossibility of the fact experience The work is about the philosophy of history It is addressed to students historians and researchers in the field of the theory of history
