The Coming:

The Coming China Wars Peter Navarro, 2008-04-24 For years China has served as the factory floor for global production driving down prices for consumers worldwide But unfortunately China's rapid and chaotic industrialization has put it on a collision course with the rest of the world The Coming China Wars was the first book to systematically cover all those conflicts political economic and environmental Now in this new edition Dr Peter Navarro has thoroughly updated the entire book You'll find new chapters on the danger posed by China's flood of defective products and contaminated food China's dramatic military expansion and the rising threat of a hot war China's space program and its profound strategic implications China's growing suppression of human rights and free speech and much more The coming China Wars will be fought over everything from decent jobs livable wages and advanced technologies to strategic resources and eventually to our most basic of all needs bread water and air Unless all nations immediately address these impending conflicts the results may be catastrophic Like the First Edition this book demands that we think much more deeply about how to stop the coming China Wars laying out hard choices that must be made sooner rather than later This new edition offers even more policy recommendations including original contributions from several of the world's most important China experts

The Coming of God Jürgen Moltmann, Margaret Kohl, 2004-07-27 Winner of Grawemeyer Award In this remarkable and timely work in many ways the culmination of his systematic theology world renowned theologian Jürgen Moltmann stands Christian eschatology on its head Moltmann rejects the traditional approach which focuses on the End an apocalyptic finale as a kind of Christian search for the final solution He centers instead on hope and God's promise of new creation for all things Christian eschatology he says is the remembered hope of the raising of the crucified Christ so it talks about beginning afresh in the deadly end Yet Moltmann's novel framework deeply informed by Jewish and messianic thought also fosters rich and creative insights into the perennially nettling questions of eschatology Are there eternal life and personal identity after death How is one to think of heaven hell and purgatory What are the historical and cosmological dimensions of Christian hope What are its social and political implications In a heartbreakingly fragile and fragment world Moltmann's comprehensive eschatology surveys the Christian vista bravely envisioning our horizons of expectation for personal social even cosmic transformation in God
