The Thing:

The Play's the Thing Ferenc Molnár, Pelham Grenville Wodehouse, 1953 P G Wodehouse's adaptation of Jatek a Kastélyban The Play in the Castle brings Ferenc Molnár's classic comedy to a wider audience The play is a romantic farce without the usual door slamming and comic entrances and exits Instead we are treated to a party of guests seemingly overhearing a lover's tryst only to find with the help of a very quick-witted playwright that they are actually hearing something very different The play combines beautifully formed characters with an exquisite text **The Thing** Phil Hore, 2023-08-14 In 1982 Universal Pictures a studio famous for its monster movies unleashed a new terror on the silver screens of the world that would change everything not that anyone knew that at the time Today John Carpenter's THE THING consistently ranks in the top of favourite or influential film lists but when it was first released it was not only considered a bomb reviewers used words like obscene gross and instant junk For the first time we look at the history of the entire THING franchise not just the 1982 film or its prequel nor the original 1951 version The Thing from Another World In this book we look at the radio versions the comics novels computer games music and how from a 1931 novella by John W Campbell Jr The Thing began infecting our lives and eventually took over the world by initiating one of the longest media franchises in history and influencing many others like ALIEN Dr Who and the X files Interviewing many of those involved we'll look at the marketing strategies the reviews the blunders censorship and yes we may even figure out exactly why The Thing failed at the box office in 1982 The Question Concerning the Thing Martin Heidegger, 2018-10-24 The Question Concerning the Thing presents a full English translation of a lecture course first delivered by Heidegger at Freiburg University during the Winter Semester of 1935-36 originally published in German as volume 41 of the Gesamtausgabe The text presents with particular clarity Heidegger's distinctive approach to issues of general philosophical interest Heidegger shows how a litany of classical metaphysical problems flow from the basic question what is a thing revealing the historicity of these problems and thus the ways in which they implicate further issues of cultural significance He examines issues regarding the history and philosophy of science philosophy of language and logic that are still debated today Moreover the lecture course as a whole is framed by questions regarding the nature of philosophy itself Along the way Heidegger provides sensitive and often provocative discussions of historically significant figures in particular Kant **The Thing**, 2018 Horror meister John Carpenter Halloween Escape from New York teams Kurt Russell's outstanding performance with incredible visuals to build this chilling version of the classic The Thing In the winter of 1982 a twelve-man research team at a remote Antarctic research station discovers an alien buried in the snow for over 100 000 years Soon unfrozen the form-changing alien wreaks havoc creates terror and becomes one of them **Printers' Ink**, 1917 Journal of the National Dental Association, 1918 Includes the proceedings Mid-Pacific Magazine, 1930 **Cobbett's Parliamentary Debates** Great Britain.
