identify different kinds of trees Ultimately I wanted to serve the purpose of conservation by creating an emotional connection to the trees My artists gave me more than I could have hoped for which is wonderful because I wanted to help promote them too Motivation for this community effort to create a children s book was sparked by the recent cuts in funding to the arts and art education particularly as it impacts children We were also motivated by our great love for trees and desire to aid tree conservation by increasing youths understanding of trees The author and artists are looking for book readers tree lovers and art supporters to aid in their cause of raising 25 000 for children s art education   *Tree Identification* South Carolina.
