## **Carbon Footprint Advanced:**

Proceedings of the 2025 3rd International Conference on Digital Economy and Management Science (CDEMS 2025)

Wenke Zang, Chunping Xia, 2025-06-26 This is an open access book The 3rd International Conference on Digital Economy and Management Science CDEMS 2025 will be held in Wuhan from April 18 to 20 2025 The conference mainly focuses on the research fields of digital economy and management science The conference aims to provide a platform for experts and scholars engaged in economics management and science to exchange scientific research results and cutting edge technologies understand academic development trends broaden research ideas strengthen academic research and discussion and promote industrial cooperation of academic results Experts scholars business people and other relevant people from universities and research institutions at home and abroad are cordially invited to attend

### **Mastering SAP Techno Solutions: Advanced Techniques for Optimizing Business Processes & Sustainable transportation future**

, 2025-01-18 In a world where technology underpins every aspect of business SAP solutions have emerged as indispensable tools for organizations striving to streamline operations drive innovation and achieve sustainable growth From optimizing supply chains to enabling real time decision making SAP s versatile platforms empower businesses to remain agile and competitive in an ever changing marketplace Mastering SAP Techno Solutions Advanced Techniques for Optimizing Business Processes Sustainable Transportation Future is a comprehensive guide that delves deep into the intersection of SAP technologies and strategic business transformation Designed for IT professionals business leaders and SAP enthusiasts this book explores cutting edge approaches to harnessing SAP solutions for maximum impact particularly in the realm of sustainable transportation and environmentally conscious operations In this book readers will discover Advanced techniques for configuring and optimizing SAP systems to enhance business efficiency Integration strategies for unifying SAP solutions with emerging technologies such as IoT AI and blockchain Practical insights into leveraging SAP modules for sustainable supply chain and transportation management Case studies highlighting innovative applications of SAP in fostering eco friendly business practices Future trends in SAP development and their implications for digital transformation As sustainability becomes a core objective for businesses globally this book places a special emphasis on how SAP solutions can drive green initiatives reduce carbon footprints and enable smarter more efficient transportation systems By blending technical expertise with visionary strategies this book provides readers with actionable knowledge to thrive in the modern era of digitalization and environmental responsibility Authors

**Data for a Greener World** Mr. Serkan Arslanalp, International Monetary Fund, Ms. Kristina Kostial, Mr. Gabriel Quiros-Romero, 2023-04-04 The book presents a structured discussion of measuring the key economic and financial dimensions of climate change It combines economic theory and analysis with real world examples of how climate data can be constructed for different country settings based on existing climate science and economic data The book will serve as a reference point for the IMF s Climate Change Indicators

Dashboard CID A guiding principle of the book is that there are important climate data gaps but also practical and innovative approaches to close many of them The book discusses how to track greenhouse gas emissions by production and consumption Chapters 1 2 which lead to physical risks Chapters 3 4 and transition risks Chapters 5 7 and conclude with cross border dimensions of climate risks Chapters 8 9

**Driving Business Success Through Eco-Friendly Strategies**  
Kulkarni, Shrikaant, Valeri, Marco, William, P., 2025-02-12 The integration of business management with sustainability practices is crucial as organizations strive to balance profitability with environmental responsibility By utilizing interdisciplinary knowledge such as computer simulation models predictive analytics and mathematical tools businesses can optimize decision making and foster green practices These approaches not only address the complexities of modern business but also help create sustainable ecosystems that ensure long term success while minimizing environmental impact Driving Business Success Through Eco Friendly Strategies provides businesses with a comprehensive understanding of how eco friendly strategies can be leveraged to drive long term success and sustainability It further illustrates how integrating environmentally responsible practices can lead to increased profitability operational efficiency and a stronger brand reputation ultimately contributing to a competitive edge in the marketplace Covering topics such as artificial intelligence AI renewable energy and user management this book is an excellent resource for researchers students academicians business professionals industrialists and more

**The Sustainability Handbook, Volume 1** Mark Von Rosing, 2024-11-30 The Sustainability Handbook Volume 1 The Body of Knowledge around Substantial Sustainability Innovation provides a comprehensive and holistic understanding of sustainability bridging the gap between academic theory and business practices Global climate change poses enormous environmental challenges and societies across the world must adapt and innovate to further the goals of sustainability The private sector must find new ways of doing business to align practices with the Sustainable Development Goals SDGs adopted by the international community Using a conceptually structured framework throughout the book examines the latest academic research to summarize what environmental social and economic sustainability means in different contexts Using numerous specific case studies and insights from industry leaders the book shows how to strategically integrate sustainability into the organization with extensive focus on policies incentives measures operations production consumption and lifecycle management Volume 1 explores the concept of Substantial Sustainability Innovation within an enterprise and why it is important It clarifies the difference between environmental social and governance aspects of sustainability and how they relate to each other With examples from local sourcing to CO2 reduction business ethics to sustainability portfolio management green business process management to gender diversity this volume explores how you can use sustainability to innovate and identifies which components to use to build an effective sustainable strategy For researchers students and businesspeople at all levels and sectors this handbook is an essential reference of the latest sustainability tools and methodologies required to adapt and innovate towards sustainability Provides step by step

guidance on key procedures and methodologies Presents chapters that begin with a graphical representation of how the topic fits within the larger framework Includes extensive coverage of sustainability related case studies and lessons learned

Biomass, Biopolymer-Based Materials, and Bioenergy Deepak Verma, Elena Fortunati, Siddharth Jain, Xiaolei Zhang, 2019-01-12 Biomass Biopolymer Based Materials and Bioenergy Construction Biomedical and Other Industrial Applications covers a broad range of material types including natural fiber reinforced polymer composites particulate composites fiberboard wood fiber composites and plywood composite that utilize natural renewable and biodegradable agricultural biomass In terms of bioenergy the authors explore not only the well known processing methods of biofuels but also the kinetics of biofuels production pathways a techno economic analysis on biomass gasification and biomass gasification with further upgrading into diesel additives and hybrid renewable energy systems for power generation Further chapters discuss advanced techniques for the development of biomass based composites biopolymer based composites biomass gasification thermal kinetic design and techno economic analysis of biomass gasification By introducing these topics the book highlights a totally new research theme in biopolymer based composite materials and bioenergy Covers a broad range of different research fields including biopolymer and natural fiber reinforcement used in the development of composites Demonstrates key research themes in materials science and engineering including materials processing polymer science biofuel processing and thermal and kinetic studies Presents valuable information for those working in research and development departments and for graduate students Masters and PhDs **Sustainability Assessment of**

**Renewables-Based Products** Jo Dewulf, Steven De Meester, Rodrigo A. F. Alvarenga, 2016-01-19 Over the past decade renewables based technology and sustainability assessment methods have grown tremendously Renewable energy and products have a significant role in the market today and the same time sustainability assessment methods have advanced with a growing standardization of environmental sustainability metrics and consideration of social issues as part of the assessment Sustainability Assessment of Renewables Based Products Methods and Case Studies is an extensive update and sequel to the 2006 title Renewables Based Technology Sustainability Assessment It discusses the impressive evolution and role renewables have taken in our modern society highlighting the importance of sustainability principles in the design phase of renewable based technologies and presenting a wide range of sustainability assessment methods suitable for renewables based technologies together with case studies to demonstrate their applications This book is a valuable resource for academics businesses and policy makers who are active in contributing to more sustainable production and consumption For more information on the Wiley Series in Renewable Resources visit [www.wiley.com/go/rrs](http://www.wiley.com/go/rrs) Topics covered include The growing role of renewables in our society Sustainability in the design phase of products and processes Principles of sustainability assessment Land use analysis Water use analysis Material and energy flow analysis Exergy and cumulative exergy analysis Carbon and environmental footprint methods Life Cycle Assessment LCA social Life Cycle Assessment and
