

A close-up portrait of Prince Harry, showing his face from the nose up. He has short, light brown hair and a full, well-groomed beard and mustache of the same color. His eyes are a light blue-grey color, and he has a neutral, steady gaze directed at the camera. The background is a plain, light-colored wall. The lighting is soft and even, highlighting the texture of his skin and the individual hairs of his beard.

The Prince:

The Prince Niccolò Machiavelli, 1998-09 Mansfield's translation of this classic work in combination with the new material added for this edition makes it the definitive version of *The Prince* indispensable to scholars, students, and lovers of the dark art of politics. [The Prince](#) Niccolò Machiavelli, 2017-07-12 The classic book has always been read again and again. What is the classic book? Why is the classic book? READ READ READ then you'll know its excellence. **The Prince** Niccolò Machiavelli, 1963-01-01 All states and dominions which hold or have held sway over mankind are either republics or monarchies. Monarchies are either hereditary ones in which the rulers have been for many years of the same family or else they are those of recent foundation. The newly founded ones are either entirely new as was Milan to Francesco Sforza or else they are as it were new members grafted on to the hereditary possessions of the prince that annexes them as is the kingdom of Naples to the King of Spain. The dominions thus acquired have either been previously accustomed to the rule of another prince or else have been free states and they are annexed either by force of arms of the prince or of others or else fall to him by good fortune or merit. I will not here speak of republics having already treated of them fully in another place. I will deal only with monarchies and will show how the various kinds described above can be governed and maintained. In the first place in hereditary states accustomed to the reigning family the difficulty of maintaining them is far less than in new monarchies for it is sufficient not to exceed the ancestral usages and to accommodate one's self to accidental circumstances in this way such a prince if of ordinary ability will always be able to maintain his position unless some very exceptional and excessive force deprives him of it and even if he be thus deprived of it on the slightest misfortune happening to the new occupier he will be able to regain it. We have in Italy the example of the Duke of Ferrara who was able to withstand the assaults of the Venetians in the year 84 and of Pope Julius in the year 10 for no other reason than because of the antiquity of his family in that dominion. In as much as the legitimate prince has less cause and less necessity to give offence it is only natural that he should be more loved and if no extraordinary vices make him hated it is only reasonable for his subjects to be naturally attached to him the memories and causes of innovations being forgotten in the long period over which his rule has existed whereas one change always leaves the way prepared for the introduction of another. But it is in the new monarchy that difficulties really exist. Firstly if it is not entirely new but a member as it were of a mixed state its disorders spring at first from a natural difficulty which exists in all new dominions because men change masters willingly hoping to better themselves and this belief makes them take arms against their rulers in which they are deceived as experience shows them that they have gone from bad to worse. This is the result of another very natural cause which is the necessary harm inflicted on those over whom the prince obtains dominion both by his soldiers and by an infinite number of other injuries unavoidably caused by his occupation. Thus you find enemies in all those whom you have injured by occupying that dominion and you cannot maintain the friendship of those who have helped you to obtain this possession as you will not be able to fulfil their

expectations nor can you use strong measures with them being under an obligation to them for which reason however strong your armies may be you will always need the favour of the inhabitants to take possession of a province It was from these causes that Louis XII of France though able to occupy Milan without trouble immediately lost it and the forces of Ludovico alone were sufficient to take it from him the first time for the inhabitants who had willingly opened their gates to him finding themselves deluded in the hopes they had cherished and not obtaining those benefits that they had anticipated could not bear the vexatious rule of their new prince It is indeed true that after reconquering the rebel territories they are not so easily lost again for the ruler is now by the fact of the rebellion less averse to secure his position by punishing offenders investigating any suspicious circumstances and strengthening himself in weak places So that although the mere appearance of such a person as Duke Ludovico on the frontier was sufficient to cause France to lose Milan the first time to make her lose her grip of it the second time was only possible when all the world was against her and after her enemies had been defeated and driven out of Italy which was the result of the causes above mentioned Nevertheless it was taken from her both the first and the second time The general causes of the first loss have been already discussed it remains now to be seen what were the causes of the second loss and by what means France could have avoided it or what measures might have been taken by another ruler in that position which were not taken by the King of France Be it observed therefore that those states which on annexation are united to a previously existing state may or may not be of the same nationality and language If they are it is very easy to hold them especially if they are not accustomed to freedom and to possess them securely it suffices that the family of the princes which formerly governed them be extinct For the rest their old condition not being disturbed and there being no dissimilarity of customs the people settle down quietly under their new rulers as is seen in the case of Burgundy Brittany Gascony and Normandy which have been so long united to France and although there may be some slight differences of language the customs of the people are nevertheless similar and they can get along well together and whoever obtains possession of them and wishes to retain them must bear in mind two things the one that the blood of their old rulers is extinct the other to make no alteration either in their laws or in their taxes in this way they will in a very short space of time become united with their old possessions and form one state But when dominions are acquired in a province differing in language laws and customs the difficulties to be overcome are great and it requires good fortune as well as great industry to retain them one of the best and most certain means of doing so would be for the new ruler to take up his residence in them This would render their possession more secure and durable it is what the Turk has done in Greece in spite of all the other measures taken by him to hold that state it would not have been possible to retain it had he not gone to live there Being on the spot disorders can be seen as they arise and can quickly be remedied but living at a distance they are only heard of when they get beyond remedy Besides which the province is not despoiled by your officials the subjects are pleased with the easy accessibility of their prince and wishing to be loyal they have more reason to love him and should they be otherwise they will

have greater cause to fear him Any external Power who wishes to assail that state will be less disposed to do so so that as long as he resides there he will be very hard to dispossess The other and better remedy is to plant colonies in one or two of those places which form as it were the keys of the land for it is necessary either to do this or to maintain a large force of armed men The colonies will cost the prince little with little or no expense on his part he can send and maintain them he only injures those whose lands and houses are taken to give to the new inhabitants and these form but a small proportion of the state and those who are injured remaining poor and scattered can never do any harm to him and all the others are on the one hand not injured and therefore easily pacified and on the other are fearful of offending lest they should be treated like those who have been dispossessed of their property To conclude these colonies cost nothing are more faithful and give less offence and the injured parties being poor and scattered are unable to do mischief as I have shown For it must be noted that men must either be caressed or else annihilated they will revenge themselves for small injuries but cannot do so for great ones the injury therefore that we do to a man must be such that we need not fear his vengeance But by maintaining a garrison instead of colonists one will spend much more and consume in guarding it all the revenues of that state so that the acquisition will result in a loss besides giving much greater offence since it injures every one in that state with the quartering of the army on it which being an inconvenience felt by all every one becomes an enemy and these are enemies which can do mischief as though beaten they remain in their own homes In every way therefore a garrison is as useless as colonies are useful Further the ruler of a foreign province as described should make himself the leader and defender of his less powerful neighbours and endeavour to weaken the stronger ones and take care that his possessions are not entered by some foreigner not less powerful than himself who will always intervene at the request of those who are discontented either through ambition or fear as was seen when the toli invited the Romans into Greece and in whatever province they entered it was always at the request of the inhabitants And the rule is that when a powerful foreigner enters a province all the less powerful inhabitants become his adherents moved by the envy they bear to those ruling over them so much so that with regard to these minor potentates he has no trouble whatever in winning them over for they willingly join forces with the state that he has acquired He has merely to be careful that they do not assume too much power and authority and he can easily with his own forces and their favour put down those that are powerful and remain in everything the arbiter of that province And he who does not govern well in this way will soon lose what he has acquired and while he holds it will meet with infinite difficulty and trouble

The Prince Niccolò Machiavelli, 2001

The Prince has long been both praised and reviled for its message of moral relativism and political expediency Although a large part is devoted to the mechanics of gaining and staying in power Machiavelli s end purpose is to maintain a just and stable government He is not ambiguous in stating his belief that committing a small cruelty to avert a larger is not only justifiable but required of a just ruler Machiavelli gives a vivid portrayal of his world in the chaos and tumult of early 16th century Florence Italy and Europe He uses both his contemporary political situation and that of the classical period to illustrate his

ambition and risk taking So in another break with tradition he treated not only stability but also radical innovation as possible aims of a prince in a political community Managing major reforms can show off a Prince s virtue and give him glory He clearly felt Italy needed major reform in his time and this opinion of his time is widely shared Machiavelli s descriptions in The Prince encourage leaders to attempt to control their fortune gloriously to the extreme extent that some situations may call for a fresh founding or re founding of the modes and orders that define a community despite the danger and necessary evil and lawlessness of such a project Founding a wholly new state or even a new religion using injustice and immorality has even been called the chief theme of The Prince Machiavelli justifies this position by explaining how if a prince did not win love he may escape hate by personifying injustice and immorality therefore he will never loosen his grip since fear is held by the apprehension of punishment and never diminishes as time goes by For a political theorist to do this in public was one of Machiavelli s clearest breaks not just with medieval scholasticism but with the classical tradition of political philosophy especially the favorite philosopher of Catholicism at the time Aristotle This is one of Machiavelli s most lasting influences upon modernity
