

## Problem 1

From the information below, prepare a cash budget for the period from January to April.

| Expected Sales |        | Expected Purchase |        |
|----------------|--------|-------------------|--------|
| \$             |        | \$                |        |
| Jan.           | 60,000 | Jan.              | 48,000 |
| Feb.           | 40,000 | Feb.              | 80,000 |
| Mar.           | 45,000 | Mar.              | 81,000 |
| Apr.           | 40,000 | Apr.              | 90,000 |

The wages to be paid to workers amount to \$5,000 each month. Also, the bank balance on 1st January was \$8,000. The management decided on the following:

- If the deficit fund is within the limit of \$10,000, it is possible to make arrangements with the bank.
- If the deficit fund exceeds \$10,000 but is within the limit of \$42,000, the issue of debentures = long term security is preferred.
- If the deficit fund exceeds \$42,000, the issue of shares is preferred (considering the fact that it is within the limit of authorized capital).
