American Architect and Building News ,1879 **Karl Rahner's Writings on Literature, Music and the Visual Arts** ,2021-08-26 This book is made up of a collection of texts unavailable in one volume until now including six previously untranslated essays from a major theologian of the twentieth century Rahner s numerous writings focused on the revelation of God as mystery in the world and on the human being who has an essential openness towards the transcendent His articles

reveal an empathy and a depth of insight into the relationship between theology faith and the arts which are remarkable and may take the reader by surprise More recently Rahner s contribution to the growing field of theology and the arts has been recognised by leading theologians on this subject He asserts that theology must integrate the verbal and non verbal arts as they are authentic means of human self expression of religious experience and of God s self communication and therefore they are essential sources of theology Rahner argues that theology understood as a person s reflexive self expression about him or herself in the light of divine revelation cannot be regarded as complete until the arts become an intrinsic moment of theology itself
