Where The Heart Lead:

Lead with Heart Tom Gartland, Patrick Sweeney, 2018-05-01 If you want your company to thrive you need to break one of the oldest unwritten rules of leadership Leaders in nearly every industry have learned to keep a professional distance between themselves and the people who report to them to avoid getting too close or too personal This unwritten rule of leadership is pervasive and quietly destructive and little by little keeping ourselves at arm s length destroys trust collaboration and the very fabric of organizations When Tom Gartland became president of Avis Budget Group North America he wanted the corporate culture to become more open and connected so he started with himself His message was business is personal very personal As he grew closer and connected more with those he was leading he became a more effective leader and those around him were inspired to create unprecedented results Tom found that when we truly open up and care about the people we work with we can transform organizations into sanctuaries where people feel a deep connection to one another a profound sense of being part of an important mission and extraordinary engagement in their work The result Employees who feel valued generate exceptional profits After applying this business philosophy at Avis not only did Tom see an increase in employee morale he also saw a significant increase in the company s bottom line In **Lead with Heart** Tom provides an unconventional approach to business leadership including advice and strategies on how to open yourself up as a leader recognize potential in your employees and increase employees trust in you and the company **Lead with Heart** is the revolutionary leadership book that will help managers and employees at all levels grow their businesses by connecting honestly and meaningfully with the people they lead

Lead From The Heart Mark C. Crowley, 2022-08-23 Leadership and engagement expert Mark C Crowley shows how trading in the old business playbook for heart led leadership strategies will create purpose driven dedicated employees and higher levels of performance Revised and updated to address the needs of those managing Gen Z and millennial employees in addition to the latest global research on employee engagement In this thoroughly revised and updated edition of his now classic book visionary Mark C Crowley provides the roadmap workplace leaders the world over are seeking How to most successfully and sustainably inspire and manage other human beings in the post pandemic era Nearly 50 million workers quit their jobs in the U S alone in 2021 a record number likely to be exceeded in 2022 While we might imagine that an opportunity to earn greater pay is the key driver of this Great Resignation research shows two thirds of the reasons people leave jobs boil down to issues related to their engagement and overall well being More specifically people quit when they feel they aren t valued respected appreciated coached or cared about personally by their manager and organization Thanks in large part to the COVID pandemic and a global reset of what matters most to people in their lives human beings have profoundly evolved in what they need and want in exchange for their work Consequently a radical change in employee expectations demands that organizations and managers rapidly pivot by embracing leadership practices that match the moment The remedy to the Great Resignation is to adopt more humane ways

of managing people knowing they inherently lead to infinitely greater engagement not to mention optimal employee performance In this new and updated version of his seminal and visionary book Mark C Crowley draws upon emerging medical and other scientific discoveries which prove it s the heart not the mind that drives human motivation and achievement While we ve long been led to believe that human beings are essentially rational beings new research shows that feelings and emotions far more often motivate human behavior and what people care about most and commit themselves to in their lives In light of this breakthrough understanding it s become incumbent upon workplace managers to pay great attention to their employees emotional experience at work far greater attention than any of us ever believed necessary Ironically most of us were told the heart has no place in workplace management In fact most of us were taught that the heart acts like Kryptonite in leadership it inherently undermines a manager s effectiveness and lowers performance What makes this book so remarkable is that it brilliantly contradicts all those traditional beliefs and proves why people naturally and instinctively respond to managers who care about them personally and support their deep human needs To be absolutely clear there s nothing soft or weak about the Lead From The Heart philosophy Instead it represents the future of workplace management and a roadmap to driving uncommon engagement productivity and profitability when organizations around the world are wanting it most Rich with inspiring stories and illuminating research this book proves that when you lead people with a greater balance of mind and heart people naturally follow And they also excel
