Du Document à l'utilisateur- from Document to User Kristy Davis, 2008 C est un défi de taille pour les archivistes les bibliothécaires les museologues ou les documentalistes spécialisés de conserver la mémoire et la trace du spectacle vivant dans une société où les techniques évoluent sans cesse Les techniques d'enregistrement audiovisuel et les supports pour conserver les images se sont modifiés La mise en valeur de nouveaux médias est un gageure dans la conception des expositions Enfin les pratiques de recherche et l'essor conjoint des bases de données ont modifié la donne Tels sont les nombreux sujets de réflexion qui se sont offerts aux membres de la SIBMAS Société internationale des bibliothèques et musées des arts du spectacle lors de son 25^e Congrès qui s'est tenu à Barcelone en 2004 En voici les Actes qui par des approches diverses tenteront d'éclairer ces interrogations In a world where technologies are constantly evolving it is a real challenge for archivists librarians museum curators and information professionals to keep track of and record living theatre Audiovisual recording techniques are now cheap and accessible to many electronic storage and dissemination of information and images has radically altered the relationship between the managers of collections and their potential users new techniques have introduced new possibilities for interactivity in exhibitions and displays These are just some of the issues addressed by the SIBMAS International Association of Libraries and Museum of the Performing Arts during its 25th Annual Conference held in Barcelona in 2004

The Turn of the Century Christian Berg, Frank Durieux, Geert Lernout, 1995 Rewritten versions of contributions to an international conference held at the University of Antwerp in May 1992 Starting point for the conference was the vagueness of the very terms modernism and modernity In the first section a group of comparatists address the theoretical and terminological problems of modernism Practical readings of modernist writers discussions of different modernist movements and the work of critics who have contributed to debates about modernism make up the second section The third section looks at the problem of modernism from an interartistic and interdisciplinary perspective

Peeters 1995 *The Documentary Imagination in Twentieth-Century French Literature* Alison James, 2020-09-03 The Documentary Imagination in Twentieth Century French Literature identifies a documentary impulse in French literature that emerges at the end of the nineteenth century and culminates in a proliferation of factual writings in the twenty first Focusing on the period bookended by these two moments it highlights the enduring concern with factual reference in texts that engage either with current events or the historical archive Specifically it considers a set of ideas and practices centered on the conceptualization and use of documents In doing so it contests the widespread narrative that twentieth century French literature abandons the realist enterprise and argues that writers instead renegotiate the realist legacy outside or at the

margins of the fictional space of the novel Analyzing works by authors including Gide Breton Aragon Yourcenar Duras and Modiano the book defines a specific documentary mode of literary representation that records assembles and investigates material traces of reality The document is a textual visual or material piece of evidence repurposed through its visual insertion textual transcription or description within a literary work It is a fact but it also becomes a figure standing for literature s confrontation with the real The documentary imagination involves a fantasy of direct access to a reality that speaks for itself At the same time it gives rise to concrete textual practices that open up new directions for literature by interrogating the construction and interpretation of facts
