## Unknown Island:

*Shipwreck and Island Motifs in Literature and the Arts*, 2015-05-19 The motifs of island and shipwreck have been present in literature and the arts from ancient times Whether they occur as plot elements as part of literary or film imagery as symbols in paintings as leitmotifs in songs or as concepts in philosophical theories both have always been a source of fascination to authors artists and scholars In *Shipwreck and Island Motifs in Literature and the Arts* Brigitte Le Juez and Olga Springer have gathered essays that explore shipwreck and island figures in texts as historically culturally and artistically diverse as Walter Scott's *The Lord of the Isles* Cristina Fernandez Cubas *The Lighthouse* reality TV series *Treasure Island* pop songs of the BBC Radio programme *Desert Island Discs* or The Otolith Group's essay film *Hydra Decapita* *Romantic Dialogues and Afterlives* Monika Coghén, Anna Paluchowska-Messing, 2020 Romantic writers often asserted their individuality but this assertion tended to take the form of positioning themselves in relation to other authors and literary texts Thus they implicitly acknowledged the rich network of broadly understood poetic dialogue as an important and potent source for their own creativity When in 1816 John Keats wrote *Great spirits now on earth are sojourning* he celebrated the originality of his contemporaries and the historical significance of his times pointing to deep interest in the hum of mighty works in all the fields of human activity to which the nations ought to listen Keats's sonnet suggests not only stimulating exchanges between poets artists and social thinkers in the same language but also the idea of transnational appreciation and dialogue The volume takes up this idea and explores the dialogues of Romantic authors within the wide scope of European and American cultures Essays by scholars from Germany Britain Bulgaria Poland Canada and the United States of America examine Romantic writers responses to their contemporaries explore their dialogues with the culture of the past and their interactions across the arts and sciences They also scrutinize the Romantics far reaching influence on later writers and artists and thus extend the network of artistic exchange to modern times The volume offers a rich tapestry of interconnections that span across time and space interlace languages and cultures and link Romantic writers and artists with their predecessors and successors across Europe and America The essays in the collection invite the reader to join ongoing dialogues between writers and their audiences of the past and present *Journal of the Royal Society of New Zealand*, 1985-09 Never Coming Home Kate M. Williams, 2022-06-21 The beach read you have been dying for When ten of America's hottest teenage influencers are invited to an exclusive island resort things are sure to get wild But murder isn't what anyone expected Will anyone survive Everyone knows Unknown Island it's the world's most exclusive destination Think white sand beaches turquoise seas and luxury accommodations Plus it's invite only no one over twenty one allowed and it's absolutely free Who wouldn't want to go The mysterious resort launched with a viral marketing campaign and now the whole world is watching as the mysterious resort opens its doors to the First Ten the ten elite influencers specifically chosen to be the first to experience everything Unknown Island has to offer You know them There's the gamer the beauty blogger the rich girl the superstar the

junior politician the environmentalist the DJ the CEO the chef and the athlete What they don't know is that they weren't invited to Unknown Island for their following they were invited for their secrets Everyone is hiding a deadly one and it looks like someone's decided it's payback time Unknown Island isn't a vacation it's a trap And it's beginning to look like the First Ten no matter how influential are never coming home

Ecologies of Affect Tonya K. Davidson, Ondine Park, Rob Shields, 2013-06-01 Ecologies of Affect offers a synthetic introduction to the felt dynamics of cities and the character of places The contributors capture the significance of affects including desire nostalgia memory and hope in forming the identity and tone of places The critical intervention this collection of essays makes is an active consistent engagement with the virtualities that produce and refract our idealized attachments to place Contributors show how place images and attempts to build communities are rather than abstractions fundamentally tied to and revolve around such intangibles We understand nostalgia desire and hope as virtual that is even though they are not material they are nevertheless real and must be accounted for In this book the authors take up affect emotion and emplacement and consider them in relation to one another and how they work to produce and are produced by certain temporal and spatial dimensions The aim of the book is to inspire readers to consider space and place beyond their material properties and attend to the imaginary places and ideals that underpin and produce material places and social spaces This collection will be useful to practitioners and students seeking to understand the power of affect and the importance of virtualities within contemporary societies where intangible goods have taken on an increasing value
