Clandestine Erotic Fiction in English 1800-1930 Peter Mendes,2016-12-05 This work offers bibliographical descriptions of all printings of erotic fiction in English issued clandestinely during the period 1800 1930 By clandestine is meant books whose publishers and printers attempt to hide their identities usually by offering title pages whose misleading places and dates of publication may shock and amuse but which always aim to mystify Using internal and external evidence an attempt is made to establish who were the printers booksellers and publishers English and Continental involved in this trade The printing families or groups into which a large percentage of the material falls are classified accompanied by illustrations which identify the main printing characteristics house styles of the groups Bibliographical descriptions follow a checklist of clandestine catalogues these provide valuable evidence for dating pricing and sales pitch and information on items of which no copies can now be traced The work concludes with a series of appendices which provide significant external evidence and

three indexes of themes titles and names Peter Mendes original research builds on and significantly extends the essential pioneer work of the Victorian collector and bibliographer H S Ashbee Pisanus Fraxi *The Papers of the Bibliographical Society of America* Bibliographical Society of America,1995 Queen Victoria's Secrets Adrienne Munich,1996-06-13 Drawing upon feminist anthropological and postcolonial approaches Munich searches out the myriad often contradictory incarnations of Queen Victoria in the minds of her subjects Victorian Revolutionaries Morse Peckham,2010-02-01 Originally published New York Braziller 1970 *Victorian Revolutionaries* Arthur Asa Berger,2017-09-08 The Victorian era is rightly associated with the industrial revolution in Britain and the ascendancy of a materialist commercially oriented middle class The threat to spiritual values was felt strongly in the realm of religion but also in the secular realm of the arts and literature This volume analyzes the drive toward cultural transcendence in the lives and works of such eminent Victorians as Tennyson Carlyle Browning the aesthetics of the Pre Raphaelites and the romantic origins of anthropology The various modes of escape from the Victorian era helps illuminate present concerns about culture and society First published in 1970 *Victorian Revolutionaries* represents a major effort in the intellectual rehabilitation of Victorian art and thought Peckham s readings of *In Memoriam* and *Idylls of the King* show Tennyson at odds with Christianity except with the notion of the immortality of the soul The terror of meaninglessness that he discerns here is echoed in the chapter on Carlyle who views human life as issuing from mystery and proceeding in chaos protected only by self deception For Browning the perceived lack of meaning or purpose results in an existential poetics of the world as theater and the individual as actor Peckham s chapter on the Pre Raphaelites anticipates their later rehabilitation by arguing that their work properly understood constitutes a challenge to the institutional modernism of the late twentieth century just as they had in turn challenged the academic values of the Royal Academy The West is once more living in a culturally critical period today Any help we can get in understanding how to deal with it is bound to be of value Not the particular strategies of these men but the general pattern of their search in social and anthropological theory is probably the most useful thing they have to offer
