Yoga In Practice:

Yoga in Practice David Gordon White, 2011-10-31 Primary texts in yoga from ancient times to today Yoga is a body of practice that spans two millennia and transcends the boundaries of any single religion geographic region or teaching lineage In fact over the centuries there have been many yogas yogas of battlefield warriors of itinerant minstrels and beggars of religious reformers and of course the yogas of mind and body so popular today Yoga in Practice is an anthology of primary texts drawn from the diverse yoga traditions of India greater Asia and the West This one of a kind sourcebook features elegant translations of Hindu Buddhist Jain and even Islamic yogic writings many of them being made available in English for the very first time Collected here are ancient colonial and modern texts reflecting a broad range of genres from an early medical treatise in Sanskrit to Upanishadic verses on sacred sounds from a Tibetan catechetical dialogue to funerary and devotional songs still sung in India today and from a 1930s instructional guide by the grandfather of contemporary yoga to the private papers of a pioneer of tantric yoga in America Emphasizing the lived experiences to be found in the many worlds of yoga Yoga in Practice includes David Gordon White's informative general introduction as well as concise introductions to each reading by the book's contributors

Yoga, Meditation, and Mysticism Kenneth Rose, 2016-09-08 Contemplative experience is central to Hindu yoga traditions Buddhist meditation practices and Catholic mystical theology and despite doctrinal differences it expresses itself in suggestively similar meditative landmarks in each of these three meditative systems In Yoga Meditation and Mysticism Kenneth Rose shifts the dominant focus of contemporary religious studies away from tradition specific studies of individual religious traditions communities and practices to examine the contemplative universals that arise globally in meditative experience Through a comparative exploration of the itineraries detailed in the contemplative manuals of Theravada Buddhism Patajali's Yoga and Catholic mystical theology Rose identifies in each tradition a moment of sharply focused awareness that marks the threshold between immersion in mundane consciousness and contemplative insight As concentration deepens the meditator steps through this threshold onto a globally shared contemplative itinerary which leads through a series of virtually identical stages to mental stillness and insight Rose argues that these contemplative universals familiar to experienced contemplatives in multiple traditions point to a common spiritual mental and biological heritage Pioneering the exploration of contemplative practice and experience with a comparative perspective that ranges over multiple religious traditions religious studies philosophy neuroscience and the cognitive science of religion this book is a landmark contribution to the fields of contemplative practice and religious studies
