## Values Clarification

Your values are the beliefs that define what is most important to you. They guide most of your choices in life. For example, someone who values family might try to spend extra time at home, while someone who values success in their career may do just the opposite. Understanding your values will help you recognize areas of your life that need more attention, and what to prioritize in the future.

Select the 10 most important items from the following list. Rank them from 1-10 with "1" being the most important item.
