

Translation Contract

This Contract is between Client (the "Client") and Acme, a California limited liability company (the "Translator").

The Contract is dated *[the date both parties sign]*.

1. WORK AND PAYMENT.

1.1 Project. The Client is hiring the Translator to do the following: Details to be provided.

1.2 Schedule. The Translator will begin work on September 04, 2023 and will continue until the work is completed. This Contract can be ended by either Client or Translator at any time, pursuant to the terms of Section 6, Term and Termination.

1.3 Payment. The Client will pay the Translator a flat fee of \$1,000.00 (USD). Of this, the Client will pay the Translator \$100.00 (USD) before work begins.

1.4 Expenses. The Client will reimburse the Translator's expenses. Expenses do not need to be pre-approved by the Client.

1.5 Invoices. The Translator will invoice the Client at the end of the project. The Client agrees to pay the amount owed within 15 days of receiving the invoice. Payment after that date will incur a late fee of 1.0% per month on the outstanding amount.

1.6 Support. The Translator will not provide support for any deliverable once the Client accepts it, unless otherwise agreed in writing.

2. OWNERSHIP AND LICENSES.

2.1 Client Owns All Work Product. As part of this job, the Translator is creating "work product" for the Client. To avoid confusion, work product is the finished product, as well as drafts, notes, materials, mockups, hardware, designs, inventions, patents, code, and anything else that the Translator works on—that is, conceives, creates, designs, develops, invents, works on, or reduces to practice—as part of this project, whether before the date of this Contract or after. The Translator hereby gives the Client this work product once the Client pays for it in full. This means the Translator is giving the Client all of its rights, titles, and interests in and to the work product (including intellectual property rights), and the Client will be the sole owner of it. The Client can use the work product however it wants or it can decide not to use the work product at all. The Client, for example, can modify, destroy, or sell it, as it sees fit.

2.2 Translator's Use Of Work Product. Once the Translator gives the work product to the Client, the Translator does not have any rights to it, except those that the Client explicitly gives the Translator here. The Client gives permission to use the work product as part of portfolios and websites, in galleries, and in other media, so long as it is to showcase the work and not for any other purpose. The Client does not give permission to sell or otherwise use the work product to make money or for any other commercial use. The Client is not allowed to take back this license, even after the Contract ends.

2.3 Translator's Help Securing Ownership. In the future, the Client may need the Translator's help to show that the Client owns the work product or to complete the transfer. The Translator agrees to help with that. For example, the Translator may have to sign a patent application. The Client will pay any required expenses for this. If the Client can't find the Translator, the Translator agrees that the Client can act on the Translator's behalf to accomplish the same thing. The following language gives the Client that right: If the Client can't find the Translator after spending reasonable effort trying to do so, the Translator hereby irrevocably designates and appoints the Client as the Translator's agent and attorney-in-fact, which appointment is coupled with an interest, to act for the Translator and on the Translator's behalf to execute, verify, and file the required documents and to take any other legal action to accomplish the purposes of paragraph 2.1 (Client Owns All Work Product).

2.4 Translator's IP That Is Not Work Product. During the course of this project, the Translator might use intellectual property that the Translator owns or has licensed from a third party, but that does not qualify as "work product." This is called "background IP." Possible examples of background IP are pre-existing code, type fonts, properly-licensed stock photos, and web application tools. The Translator is not giving the Client this background IP. But, as part of the Contract, the Translator is giving the Client a right to use and license (with the right to sublicense) the background IP to develop, market, sell, and support the Client's products and services. The Client may use this background IP worldwide and free of

Memes of Translation Andrew Chesterman, 1997-01-01 Memes of Translation is a search for coherence in translation theory based on the notion of Memes ideas that spread develop and replicate like genes The author explores a wide range of ideas on translation mapping the meme pool of translation theory with chapters on translation history norms strategies assessment ethics and translator training The aim of the book is to search for a perspective from which the immense variety of ideas about translation can be related The unifying thread is the philosophy of Karl Popper The book proposes the beginnings of a Popperian theory of translation based on the fundamental concepts of norms strategies and values A key idea is that a translation itself is a theory or hypothesis concerning the source text This hypothesis is then subjected to testing refinement and perhaps even rejection just like any other hypothesis

Memes of Translation Andrew Chesterman, 2016-02-25 This revised edition of Memes of Translation includes updates that relate the book s themes to more recent research in Translation Studies The book contributes to the debate about whether it is worth seeking a coherent theory of translation by proposing an approach based on norms strategies and values which are all seen as kinds of memes i e ideas that spread The meme metaphor allows us to see translation in the context of cultural evolution and also highlights similarities with the philosopher Karl Popper s analysis of another kind of evolution that of scientific knowledge A translation is after all itself a theory a theory about the source text And as Popper stressed theories of all kinds are like nets we make in order to catch something of reality never perfectly but always in the hope of better understanding

The Global Translator's Handbook Morry Sofer, 2012-12-16 A practical guide to translation as a profession this book provides everything translators need to know from digital equipment to translation techniques dictionaries in over seventy languages

and sources of translation work It is the premier sourcebook for all linguists used by both beginners and veterans and its predecessor *The Translator's Handbook* has been praised by some of the world's leading translators such as Gregory Rabassa and Marina Orellana

The Return to Ethics Anthony Pym, 2016-04-22 If civilizations are to cooperate as well as clash our mediators must solve problems using serious thought about relations between Self and Other Translation Studies has thus returned to questions of ethics But this is no return to any prescriptive linguistics of equivalence As the articles in this volume show ethics is now a broadly contextual question dependent on practice in specific cultural locations and situational determinants It concerns people perhaps more than texts It involves representing dynamics seeking specific goals challenging established norms and bringing theory closer to historical practice The contributions to this volume study a wide range of translational activity questioning global copyright regimes denouncing exploitation within the translation profession defending a Bible translation in terms of multilateral loyalty and delving into the dynamics of popular genres the culture bubbles of talk shows the horrors of disaster relief in Turkey military interpreters in the Balkans and urgent political pleas from a Greek prison The theoretical approaches range from empirical text analysis to applications of fuzzy logic passing through a proposed Translator's Oath and converging in a common concern with cross cultural alterity

Law and Intersystemic Communication Gorm Harste, 2016-04-15 With contributions from experts in the field of sociology of law this book provides an overview of current perspectives on socio legal studies It focuses particularly on the relationship between law and society described in recent social systems theory as structural coupling The first part of the book presents a reconstruction of theoretical tendencies in the field of socio legal studies characterised by the emergence of a transnational model of legal systems no longer connected to territorial borders and culturally specific aspects of single legal orders In the following parts of the book the contributions analyse some concrete cases of interrelation between law and society from an empirical and theoretical perspective
