Working-Class Formation Ira Katznelson, Aristide R. Zolberg, 2021-04-13 Applying an original theoretical framework an international group of historians and social scientists here explores how class rather than other social bonds became central to the ideologies dispositions and actions of working people and how this process was translated into diverse institutional legacies and political outcomes Focusing principally on France Germany and the United States the contributors examine the historically contingent connections between class as objectively structured and experienced and collective perceptions and responses as they develop in work community and politics Following Ira Katznelson s introduction of the analytical concepts William H Sewell Jr Michelle Perrot and Alain Cottureau discuss France Amy Bridges and Martin Shefter the United States and Jargen Kocka and Mary Nolan Germany The conclusion by Aristide R Zolberg comments on working class formation up to World War I including developments in Great Britain and challenges conventional wisdom about class and politics in the industrializing West

The Development of an African Working Class Richard Sandbrook, Robin Cohen, 2023-08-18 Originally published in 1975 this volume reassesses the historical political and social role of African workers and examines the extent to which a working class has formed and undertaken collective action in various parts of Africa The book is based on primary historical sources or first hand experiences The contributors are linked by their belief in the legitimacy of action by organised workers to create a more just society

The Making of American Exceptionalism Kim Voss, 1993 Why has the labor movement in the United States been so weak and politically conservative in comparison to movements in Western Europe Kim Voss rejects traditional interpretations theories of American exceptionalism which attribute this distinctiveness to inherent characteristics of American society On the contrary she demonstrates the American labor movement had much in common with its English and French counterparts for most of the nineteenth century Only with the collapse of the Knights of Labor the largest American labor organization of the century did the U S movement take a different path

How Classes are Made William H. Sewell (Jr.), 1986 American Exceptionalism? Rick Halpern, Jonathan Morris, 1997-08-12 The idea that American historical development is different from that of other nations is an old one yet it shows no sign of losing its emotive power Exceptionalism continues to excite beguile and frustrate students of the American past The essays in this volume explore the ways in which the process of class formation in the United States can be said to be distinctive Focusing upon the impact of

liberal political thought race and immigration and the role of the war time state they challenge particularist and nation centred modes of explanation Comparing American historical development with Italian South African and Australian examples the essays reinvigorate a tired debate Proletarians and Protest Michael P.
