

Child Development Theorist Study Guide

Summarize the studies and theories/ideas of the child development researchers below. Use the "Working with Young Children" and "Child Care Today" textbooks to complete the task.

Researcher	Theories/Ideas	Significance of Ideas
Erik Erikson	the psychosocial theory	his theory provided new insights into the formation of a healthy personality. it emphasizes the social and emotional aspects of growth.
Sigmund Freud	psychoanalyst, freud believed the emotional or psychological problems of adults are connected to how their parents and care providers met their basic needs as children	childhood is much more important than previously thought experiences in childhood can profound long lasting effects on adult life.
Arnold Gesell	His maturation theory asserts that young children's development occurs in stages that are not strictly correlated to age.	Through his observations and research, Gesell concluded that children go through predictable stages of growth.
Lawrence Kohlberg	organized development stages by how children learn right from wrong. Said young children choose what seems in their best interests but teens are influenced by their parents and friends	knowing a child's current development stage allows you to understand his or her reasons for a decision and to help him or her learn right from wrong.
Abraham Maslow	known for his theory on the hierarchy of needs, the lowest and most basic needs are physical, such as food and	children rely completely on their care providers to fulfill their basic needs.
