Trademark Law and Theory Graeme B. Dinwoodie, Mark D. Janis, 2008 Boasting an impressive list of contributors this first edition of Trademark Law and Theory brings together a compilation of well written and powerfully argued works by leading international academics The book is certainly one of the most extensive and thought

provoking overviews of contemporary trademark law and theory yet to be published Whilst all the contributions share in common their examination of the rapidity of change within trademark systems the editors should be commended on their generous seasoning of other cross cutting themes throughout the Handbook This fascinating compendium enriches our understanding of the shape substance and form of trademark law and theory this Handbook is perhaps a rare exception to the adage that no book can be all things to all men Its broad sweep approach and cross cutting themes enable a range of interested parties such as policymakers academics in the fields of marketing business consumer psychology in addition to the usual suspects to dip in and out of the Handbook as they wish a unique and erudite collection of essays concerning trademark law and theory Odette Hutchinson Communications Law Trademarks is an area of vital practical everyday concern and the idea of producing a volume that brings together the perspectives of 19 thoughtful and experienced legal scholars is a bold and exciting initiative The present volume does not disappoint and the two editors are to be congratulated on orchestrating an ensemble that simultaneously informs and stimulates The title is apt it is truly contemporary and is highly theoretical and doctrinal in character while the interesting choice of the word handbook suggests clearly that this is a work in progress a snapshot at a particular time of the challenging lines of individual research that each contributor to the volume is undertaking It is a fine addition to a larger series of research handbooks in intellectual property published by Edward Elgar under the series editorship of Jeremy Phillips The editors have done a fine job in presenting this material in such a clear and coherent fashion this is an excellent and rewarding volume of readings that will be of interest to anyone working in the area of trademarks whether as an academic or as a practitioner Indeed for the practitioner it will be of particular value in that it contains and opens up many areas of inquiry that may not always be apparent when working at the coalface of a particular problem For both kinds of readers the real value of the volume is to have so many different kinds of perspectives brought together within the space of a single volume this is a handsome production the publishers and editors are to be commended on the clarity and cleanness of the typeface and headings the thoroughness of the index and the accuracy of their proof reading It has also been given a striking and evocative cover Sam Ricketson University of Melbourne Law School Australia European Intellectual Property Review Trademark Law and Theory is a first rate exploration of the issues that will dominate trademark law in the 21st century Authors from five continents provide a truly global perspective on the present and future of trademark law An exceptional collection of contributors and contributions Robert Denicola University of Nebraska US This compendium is an excellent source of writing on all aspects of trademark law and practice by experts from Europe the United States South Africa Singapore New Zealand and Australia It will be a stimulating read for lawyers academics students and policymakers alike on the present and developing trends in law and policy relating to trademarks as marketing tools and cultural artefacts The editors deserve congratulation on their concept for the book and their judicious selection of material David Vaver University of Oxford UK All students young and older in the burgeoni **Trade Marks** Alison Firth, Gary

Lea, Peter Cornford, 2005 *Trade Marks Law and Practice* is a concise account of UK trade marks law within the European and international context. This second edition deals with all the relevant domestic and international developments. The text incorporates and analyzes the ongoing amendments to the Trade Marks Act 2004, amendments to the Trade Marks Rules 2000 and the expansion of the system of international registration of trade marks under the Madrid Protocol and the International Trademark Treaty. The appendixes include helpful consolidated versions of the Act and the Rules. The work offers a coherent and logical analysis of the legal framework in which trade marks operate. It considers the commercial functions of trade marks and how to use them, how to protect trade marks and the process of registration, licensing and assignment.

*Annotated Leading Trademark Cases in Major Asian Jurisdictions* Kung-Chung Liu, 2019-10-08. There has been little or no study on trademark laws in Asia on a cross-jurisdictional level. This book aims at filling the existing gap and provides a comprehensive overview of trademark laws of eight major Asian jurisdictions and their most updated trademark case law. The book analyses six of the principal issues that best reflect Asian features in trademark law and trademark development. The cases in the book are principally the most authoritative decisions, usually the first to deal with certain new emerging issues or the first to apply particular statutory provisions in the respective jurisdiction. Also included are a small number of direction-changing, outlying or even controversial decisions. Each case report is divided into six sections: summary, legal context, facts, reasoning of the court, legal analysis, and commercial or industrial significance. Readers will find this book useful in both its overview of the legal context and how those cases are to be interpreted legally and commercially.

**Trade Mark Law and Sharing Names** Ilanah Simon Fhima, 2009-01-01. There are a number of points throughout the trade mark system where multiple undertakings share the same name, either unwillingly or by consent. In this timely book, expert contributors address this controversial issue and identify the various points at which names are shared. This unique book uses both historical and interdisciplinary perspectives, as well as more traditional legal methodology, to examine the practical and theoretical implications of such name sharing for the parties involved. It analyses what can be learned from the sharing process about the nature of the trade mark system and the interests which it protects. General themes relating to the nature and purpose of trade mark law are also discussed. The contributors focus on UK and European law, and their detailed treatment of specific trade mark topics will prove invaluable to postgraduate law students and academics specialising in intellectual property. Legal practitioners will appreciate the up-to-date consideration of concepts important in both contentious and non-

contentious trade mark practice and in house counsel for brand owners will benefit from the expert guidance offered on issues relevant to protecting their trade marks
