*Mapping the Legal Boundaries of Belonging* Rene Provost, 2014-11-04 For several decades culture played a central role in challenging the liberal tradition More recently however religion has re-emerged as one of the central challenges facing Western liberal societies conception of multiculturalism *Mapping the Legal Boundaries of Belonging* explores the complex relationship between religion and multiculturalism and the role of the state and law in the creation of boundaries The intersection between religion nationalism and other vectors of difference in Canada and Israel offer an ideal laboratory in which to examine multiculturalism in particular and the governance of diversity in general The contributors to this volume investigate concepts of religious difference and diversity and the ways in which these two states and legal systems understand and respond to them As a consequence of a purportedly secular human rights perspective they show state laws may appear to define religious identity in a way that contradicts the definition found within a particular religion Both state and religion make the same mistake if they take a court decision that emphasizes individual belief and practice as effecting a direct modification of a religious norm the court lacks the power to change the authoritative internal definition of who belongs to a particular faith Similarly in the pursuit of a particular model of social diversity the state may adopt policies that imply a particular private/public distinction foreign to some religious traditions

**Illicit Monogamy** William R. Jankowiak, 2023-03-28 Angel Park is a Mormon fundamentalist polygamous community where plural marriages between one man and multiple women are common In contrast to mainstream America s idealization of the nuclear family and romantic love its residents esteem notions of harmonious familial love a spiritual bond that unites all family members In their view polygyny is not only righteous and sanctified it is also conducive to communal life and social stability Based on many years of in depth ethnographic research in Angel Park this book explores daily life in a polygamous community William R Jankowiak considers the plural family from the points of view of husbands wives and children giving a balanced account of its complications and conflicts He finds that people in polygynous marriages especially cowives experience an ongoing struggle to balance the longing for romantic intimacy with the obligation to support the larger family They feel tension between deeply held religious convictions and the desire for emotional exclusivity which can threaten the stability and harmony of the polygamous family Men and women often form exclusive romantic pairs within plural marriages which are tolerated if not openly acknowledged showing the limits of the community s beliefs Jankowiak also challenges stereotypes of polygamous families as bastions of patriarchal power showing the weight that interpersonal and social expectations place on men Offering an unparalleled look at the complexity of a polygamous religious community **Illicit Monogamy** also helps us reconsider relationships love and family dynamics across cultures and settings
