

ACTIVE LEARNING

Active learning encourages children to learn through trial and error, discovery and social interaction rather than listening or reading to absorb knowledge.

OVERVIEW

Active Learning is a constructivist-based approach to learning which emphasizes the importance of learning through experience rather than absorbing facts verbatim from the teacher. It encourages students to discover facts themselves so they genuinely believe and understand the reasons why something is 'true' or 'accurate'.

KEY FEATURES

Key features of active learning include:

- Conducting experiments
- Project and Inquiry based learning
- Learning with, not from, teachers and peers
- Discovery learning and embracing mistakes
