Study In Karma A:

A Study in Karma Annie Besant, 1918 AMONG the many illuminating gifts to the western world conveyed to it by the medium of the Theosophical Society that of the knowledge of karma comes perhaps next in importance to that of reincarnation It removes human thought and desire from the region of arbitrary happenings to the realm of law and thus places man's future under his own control in proportion to the amount of his knowledge

A Study in Karma Annie Besant, 2016-08-24 The main conception of karma As a man soweth so shall he also reap is easy to grasp But the application of this to daily life in detail the method of its working and its far reaching consequences these are the difficulties which become more bewildering to the student as his knowledge increases The principles on which any natural science is based are for the most part readily intelligible to people of fair intelligence and ordinary education but as the student passes from principles to practice from outline to details he discovers that difficulties press upon him and if he would wholly master his subject he finds himself compelled to become a specialist and to devote long periods to the unraveling of the tangles which confront him So is it also with this science of karma the student cannot remain always in the domain of generalities he must study the subdivisions of the primary law must seek to apply it in all the circumstances of life must learn how far it binds and how freedom becomes possible He must learn to see in karma a universal law of nature and learn also as in face of nature as a whole that conquest of and rule over her can only be gained by obedience

Karma and a Study in Karma Annie Besant, 2018-10-21 Collected together in this one volume are both of Annie Besant's seminal works on the subject of Karma Karma and A Study in Karma These books are suitable for both a beginning student of Theosophy and for those more advanced in their studies explaining the subject of karma in simple exposition that goes way beyond the simple concept of reaping the harvest of what you sow
