Re-Imagining the Victim in Post-1970s Horror Media Madelon Hoedt, Marko Lukic, 2025-12-05 Despite its necessary centrality within the genre the concept of the victim has not received much direct attention within the field of horror studies Arguably their presence is so ubiquitous as to become invisible the threat of horror implies the need for a victim whose function never alters often becoming a blank slate for audiences to project their desires and fears onto This volume seeks to make explicit the concept of the victim within horror media and to examine their position in more detail demonstrating that the necessity of their appearance within the genre does not equate to a simplicity of definition The chapters within this volume cover a number of topics and approaches examining sources from literature film TV and games both analogue and digital to show the pervasiveness of horror s victims as well as the variety of their guises **Through the Starshine**
