Totemic Design Forms Betty Hall,1984      Totemism and Exogamy - A Treatise on Certain Early Forms of Superstition and Society James George Frazer,2011 As a plain record of a curious form of society which must soon be numbered with the past the book may continue to possess an interest even when with the progress of its knowledge its errors shall have been corrected and its theories perhaps superseded by others which make a nearer approach to truth Despite having been criticised later the book at hand is an important and interesting document of its time It provided the first complete ethnographical summary of totemism and exogamy dwelling on its religious and social aspects Totemism is described as a religious and social system in which people or clans regard themselves as related to certain objects Exogamy which is often found in conjunction with totemism is represented as a system which only allows marriage outside of a specific group On the whole Frazer s work includes the origins as well as an ethnographical survey of totemism and exogamy in Australian Aboriginal tribes Sir James George Frazer was a Scottish social anthropologist who contributed mainly to the studies of mythology and comparative religion and was the first to detail the relations between myths and rituals His work Totemism and Exogamy is also frequently cited by Sigmund Freud in his own study Totem and Taboo      *The Elementary Forms of the Religious Life* Emile Durkheim,2016-09-01 In this book we propose to study the most primitive and simple religion which is actually known to make an analysis of it and to attempt an explanation of it A religious system may be said to be the most primitive which we can observe when it fulfils the two following conditions in the first place when it is found in a society whose organization is surpassed by no others in simplicity and secondly when it is possible to explain it without making use of any element borrowed from a previous religion We shall set ourselves to describe the organization of this system with all the exactness and fidelity that an ethnographer or an historian could give it But our task will not be limited to that sociology raises other problems than history or ethnography It does not seek to know the passed forms of civilization with the sole end of knowing them and reconstructing them But rather like every positive science it has as its object the explanation of some actual reality which is near to us and which consequently is capable of affecting our ideas and our acts this reality is man and more precisely the man of to day for there is nothing which we are more interested in knowing Then we are not going to study a very archaic religion simply for the pleasure of telling its peculiarities and its singularities If we have taken it as the subject of our research it is because it has seemed to us better adapted than any other to lead to an understanding of the religious nature of man that is to say to show us an essential and permanent aspect of humanity      *The Evolution of Decorative Art* Henry Balfour,1893      *Magical Criticism* Christopher Bracken,2008-09-15 During the Enlightenment Western scholars racialized ideas deeming knowledge based on reality superior to that based on ideality Scholars labeled inquiries into ideality such as animism and soul migration savage philosophy a clear indicator of the racism motivating the distinction between the real and the ideal In their view the savage philosopher mistakes connections between signs for

connections between real objects and believes that discourse can have physical effects in other words they believe in magic Christopher Bracken s Magical Criticism brings the unacknowledged history of this racialization to light and shows how even as we have rejected ethnocentric notions of the savage they remain active today in everything from attacks on postmodernism to Native American land disputes Here Bracken reveals that many of the most influential Western thinkers dabbled in savage philosophy from Marx Nietzsche and Proust to Freud C S Peirce and Walter Benjamin For Bracken this recourse to savage philosophy presents an opportunity to reclaim a magical criticism that can explain the very real effects created by the discourse of historians anthropologists philosophers the media and governments
