Zero Acceptance Number Sampling Plans:

Zero Acceptance Number Sampling Plans Nicholas L. Squegla, 2008-02-07 This book provides a set of attribute plans for lot by lot inspection with the acceptance number in all cases as zero After years of extensive application by government contractors commercial manufacturing and service industries these c 0 sampling plans are now considered stand alone sampling plans They have continually gained in popularity for more than 45 years and today are the norm The zero acceptance number plans developed by the author were originally designed and used to provide equal or greater consumer protection with less overall inspection than the corresponding MIL STD 105 E sampling plans In 2000 the Department of Defense declared MIL STD 105 E obsolete and recommended the c 0 plans in this book for use in place of them In addition to the economic advantages the plans in this book are also simple to use and administer Copies printed after 2011 include the most up to date sampling plans
