The Marginalization of Poetry Bob Perelman, 1996-07-28 Language writing the most controversial avant garde movement in contemporary American poetry appeals strongly to writers and readers interested in the politics of postmodernism and in iconoclastic poetic form Drawing on materials from popular culture avoiding the standard stylistic indications of poetic lyricism and using nonsequential sentences are some of the ways in which language writers make poetry a more open and participatory process for the readers Reading this kind of writing however may not come easily in a culture where poetry is treated as property of a special class It is this barrier that Bob Perelman seeks to break down in this fascinating and comprehensive account of the language writing movement A leading language writer himself Perelman offers insights into the history of the movement and discusses the political and theoretical implications of the writing He provides detailed readings of work by Lyn Hejinian Ron Silliman and Charles Bernstein among many others and compares it to a wide range of other contemporary and modern American poetry A variety of issues are addressed in the following chapters *The Marginalization of Poetry* *Language Writing and Literary History* *Here and Now on Paper* *Parataxis and Narrative* *The New Sentence in Theory and Practice* *Write the Power* *Building a More Powerful Vocabulary* Bruce Andrews and the World Trade Center *This Page Is My Page* *This Page Is Your Page* *Gender and Mapping* *An Alphabet of Literary Criticism* and *A False Account of Talking with Frank O'Hara and Roland Barthes in Philadelphia* *Encyclopedia of American Poetry: The Twentieth Century* Eric L. Paradise and Method Bruce Andrews, 1996-08-12 Paradise alternative traditions and canons and innovative contemporary poetry particularly its break with many of the premises and constraints of even the most forward looking modernisms

A Companion to Twentieth-Century Poetry Neil Roberts, 2008-04-15 In the twentieth century more people spoke English and more people wrote poetry than in the whole of previous history and this Companion strives to make sense of this crowded poetical era The original contributions by leading international scholars and practising poets were written as the contributors adjusted to the idea that the possibilities of twentieth century poetry were exhausted and finite However the volume also looks forward to the poetry and readings that the new century will bring The Companion embraces the extraordinary development of poetry over the century in twenty English speaking countries a century which began with a bipolar transatlantic connection in modernism and ended with the decentred heterogeneity of post colonialism Representation of the canonical and the marginal is therefore balanced including the full integration of women poets and feminist approaches and the in depth treatment of post colonial poets from various national traditions Discussion of context intertextualities and formal approaches illustrates the increasing self consciousness and self reflexivity of the period whilst a Readings section offers new readings of key selected texts The volume as a whole offers critical and contextual coverage of the full range of English language poetry in the last century

From the Other Side of the Century Douglas Messerli, 1994 Since 1970 many readers have waited for another anthology that incorporates poets writing after Donald Allen's 1960 *The New American Poetry* Organized into somewhat arbitrary and non rigid categories these selections present poetry that has reshaped our language culture and thought for the past 30 years
