**Achieving Community Benefits Through Contracts** Richard Macfarlane, Mark Cook, 2002 To make employment and training or other community benefits key outcomes of a public expenditure programme they need to be incorporated into the specification of what is being purchased or funded The legislative and the policy frameworks for doing this are complex and there has been a lack of detailed guidance especially in relation to UK policy and legislation the European Treaty and EC Procurement Directives In this report the understanding of procurement issues has been furthered by discussions with the Treasury and the Office of Government Commerce It provides for the first time clear guidance on these matters Specifically it details the relevant policy and legal frameworks sets out procedures that can be used suggests support that needs to be provided gives examples of good practice [Using Local Labour in Construction](#) Richard MacFarlane, 2000-11-01

**Managing Construction Logistics** Gary Sullivan, Stephen Barthorpe, Stephen Robbins, 2011-02-25 Every major industry except construction uses logistics to improve its bottom line Poor logistics is costing the construction industry at least 3 billion a year according to a report *Improving Construction Logistics* published by the Strategic Forum for Construction Additional costs arise as a result of operatives waiting for materials and skilled craftsmen being used for unskilled jobs Inadequate management of logistics also has an adverse effect on quality causes delays to projects and adds to the health and safety risks on site This practical book highlights the benefits of good logistics as well as the use of consolidation centres on projects It shows how reduction in transport movements less money tied up in stock less waste and the more efficient use of skilled craftsmen will reduce the cost of projects reduce construction time improve quality reduce risks to health and safety improve environmental performance and generally improve the image of the industry The authors offer practical ways of achieving these benefits through integrated project teams and supply chains and the increased adoption of information technology including electronic communications bar coding and electronic tagging for tracing products They also show how specific roles for each part of the industry can help to improve logistics Practical clear and accessible First book to address logistics in construction Written by the industry recognized logistics experts Tackles issues of key concern efficient use of labour sustainability waste and supply chain management *Regeneration in the 21st Century* Michael Carley, 2000 Decades of regeneration activity have not halted the decline in prosperity and the social exclusion of sections of British society Starting in 1996 the Joseph Rowntree Foundation took action to assess the nature of this activity to discover what works and what does not and to search out examples of good practice Its Area Regeneration Programme covered every aspect of regeneration policy and practice from the national to the neighbourhood level from labour market analysis to community development *Regeneration in the 21st century* summarises the findings of the programme which include over 60 research studies It provides an overview of knowledge to date and identifies the key challenges that we face in the 21st century Analysed by specialists in each field the report considers the impact of geography

and reputation on area disadvantage why community involvement is vital and how it can be implemented the effect of joblessness on regeneration and how it can be mitigated why and how some partnerships succeed the need for integration including between top down bottom up and national local initiatives vbTab vbTab Regeneration in the 21st century is vital reading for policy makers regeneration partnerships local regional and national and for anyone interested in the regeneration of Britain
