Urban Politics Bernard H. Ross, Myron A. Levine, 2011-08-10 This popular text mixes the best classic theory and research on urban politics with the most recent developments in urban and metropolitan affairs Its very balanced and realistic approach helps students to understand the nature of urban politics and the difficulty of finding effective solutions in a suburban and global age The eighth edition provides a comprehensive review and analysis of urban policy under the Obama administration and brand new coverage of sustainable urban development A new chapter on globalization and its impact on cities brings the history of urban development up to date and a focus on the politics of local economic development underscores how questions of economic development have come to dominate the local arena The book traces the changing style of community participation including the emergence of CDCs BIDs and other new style service organizations It analyzes the impacts of the New Regionalism the New Urbanism and much more at an approachable level The eighth edition is significantly shorter and more affordable than previous editions and the entire text has been thoroughly rewritten to engage students Boxed case studies of prominent recent and current urban development efforts provide material for class discussion and concluding material demonstrates the tradeoff between more ideal and more pragmatic urban politics Source material provides Internet addresses for further research Rethinking Urban Policy National Research Council, Division of Behavioral and Social Sciences and Education, Commission on Behavioral and Social Sciences and Education, Committee on National Urban Policy, 1983-02-01 Urbanization National Development Leo Jakobson, Ved Prakash, Sheilah Orloff Jakobson, 1971-06 Compilation of writings on urbanization and economic development in South Asia and South East Asia covers the impact of national planning and regional planning policies on urbanisation rural migration slum neighbourhoods urban planning land tenure land ownership land settlement etc Bibliography pp 241 to 310 diagrams references and statistical tables **The Politics of Urban Development** Clarence Nathan Stone, Heywood T. Sanders, 1987 In the past twenty years the study of urban politics has shifted from a predominant concern with political culture and ethos to a preoccupation with political economy particularly that of urban development Urban scholars have come to recognize that cities are shaped by forces beyond their boundaries From that focus have emerged the views that cities are clearly engaged in economic competition that market processes are shaped by national policy decisions sometimes intentionally and sometimes inadvertently and that the costs and benefits of economic growth are unevenly distributed But what else needs to be said about the policies and politics of urban development To supplement prevailing theories The Politics of Urban Development argues that the role of local actors in making development decisions merits closer study Whatever the structural constraints politics still matters Collectively the essays provide ample evidence that local government officials and other community actors do not simply follow the imperatives that derive from the national political economy they are able to

assert a significant degree of influence over the shared destiny of an urban population The impact of the collection is to heighten awareness of local political practices and of how and why they make a difference **Rethinking Urban Policy** Royce Hanson,1983 **Papers and Proceedings of the Annual Meeting** American Economic Association,1906 The Atlanta University Publications ,1913 **Place Matters** Peter Dreier,John H. Mollenkopf,Todd Swanstrom,2004 Analyzes the problematic trends facing America s cities and older suburbs and challenges us to put America s urban crisis back on the national agenda
