This annotated guide to research supplements Haskell Springer's *Washington Irving: A Reference Guide* (Boston: G. K. Hall, 1976). That book's coverage extends to 1974 while this list begins in 1972, but no entries are duplicated. This supplement adheres to the original's criterion of usefulness rather than bibliographic definitiveness; we therefore do not claim to be presenting a secondary bibliography, but instead follow the *Reference Guide's* standards of inclusion and exclusion by annotating only works judged of critical or scholarly interest. Passing references, trivial remarks, or standard comments on Irving and his works (for example, in the many anthologies available) are excluded. The same is true of encyclopedia entries, M.A. theses, and literary histories. We do cite primary works by Irving when they are accompanied by significant editorial matter or criticism, and list them under "Shorter Writings," since the secondary material alone is our concern.

One of us has examined each item in this supplement, except for the few entries where an asterisk appears, signifying that we were unable to obtain a copy without excessive delay. There we cite the source of our reference. We completed our annotations in May, 1982, having pursued every item which had come to our attention up to that time.
