Sustainable Food Processing Brijesh K. Tiwari, Tomas Norton, Nicholas M. Holden, 2013-10-14 Sustainable Food Processing Food processors face numerous challenges from ever changing economic social and environmental conditions With global inequalities increasing ingredient costs climbing and global climate change becoming a major political issue food producers must now address environmental concerns social responsibility and economic viability when shaping their food processing techniques for the future Food production preservation and distribution contribute to greenhouse gas emissions from the agri food sector therefore food producers require detailed industrially relevant information that addresses these challenges The food industry as one of the world s largest users of energy must embrace new ways of meeting the needs of the present without compromising future viability It is important that the industry does not merely focus on simple indicators of sustainability that are relatively easy to calculate and hold appeal for governments and the public but which do not properly address the many dimensions of sustainability This book provides a comprehensive overview of both economic sustainability and the environmental concerns that relate to food processing It is divided into four sections Part one deals with principles and assessment of sustainability in the context of food processing Part two summarises sustainability in various food processing applications within the food industry Part three considers sustainability in food manufacturing operations that are vital in food production systems and Part four addresses sustainable food distribution and consumption As the most comprehensive reference book for industry to date this book will provide engineers educators researchers policy makers and scientists working in the food industry with a valuable resource for their work

Reverberations Debbie McGowan, 2022-12-21 Mysterious happenings are mounting up for Josh Sean and their estranged alumni Josh Sandison Morley was born a sceptic Why else would he insist there s no such thing as ghosts when he s eliminated every plausible explanation for the noises in his former therapy rooms Sean Tierney s having some performance issues His GP says there s no physical reason his blood pressure is

under control and he's stayed off the booze ergo it's all in his head In the circumstances being a palliative clinical psychologist isn't proving self helpful Despite two decades of friendship and their grand plans to open a private psychotherapy centre neither man confides in the other That is until news reaches them both via different avenues that their experiences are but part of a bizarre cluster of unexplained phenomena for which there is only one common denominator Whether real or the product of overwrought imaginations Josh Sean and their alumni must lay to rest the spectre of a once beloved friend or admit defeat and crawl back under the safe weighty stones of the jobs and relationships they've left behind
