Is discipline the best way to achieve an effective management of classroom learning? Paulette Reefer,2016-12-08 Seminar paper from the year 1993 in the subject Pedagogy School Pedagogics grade A The University of the West Indies St Augustine course In Service Diploma in Education Programme language English abstract This essay attempts to engage in a philosophical psychological and sociological exploration of the misconceptions and the truths of the statement Effective management of classroom learning can best be achieved through discipline This essay proposes that there are varying kinds of discipline types that can be counterproductive to the processes of education and learning and others which can result in increased and effective management of teaching and learning within the classroom The topic under discussion is thus considered a highly contentious and debatable issue This essay addresses the underlying assumptions of the statement which suggest that there are other methods of effective management of classroom learning but discipline is the best approach In addition it explores the subsequent logical conclusion that if indeed discipline is the best method for effectively managing classroom learning it follows that the best disciplinarians will achieve optimum learning with students of their classrooms In conventional usage discipline means to bring under control to educate or train There is a distinction to be made between varying types of discipline prevailing within schools These can be placed easily into two

categories good effective discipline and bad ineffective discipline Phillips Weiner and Haring explain that good discipline is not a matter of punishment or a brutal attitude It emphasizes the development of a structure which is conducive to the child s learning achieving and developing emotional and social maturity They posit that good discipline in schools helps to promote self discipline as a habitual way of behaving Self discipline contributes to self assurance and thus affects one s outlook and confidence and as such it is conducive to learning On the other hand they refer to bad discipline as discipline that is too harsh too quickly administered and too defeating Haring Weiner and Phillips 1960 Close and prolonged observation within many public and private schools at both primary and secondary levels would perhaps reveal varying interlacing of both good and bad discipline systems Few would argue that maintaining good discipline is a necessary prerequisite to establishing a school or classroom climate that is conducive to learning This belief is conceded to by Curving and Mendler Setting Limits in the Classroom, 3rd Edition Robert J. Mackenzie, Lisa Stanzione, 2010-07-20 Disruptive behavior power struggles lack of motivation attention deficit disorder at times the list of obstacles to teaching seems endless That s why thousands of teachers and child care providers have turned to the solutions in Setting Limits in the Classroom This fully updated and expanded third edition offers the most up to date alternatives to punishment and permissiveness moving beyond traditional methods that wear you down and get you nowhere Topics include Eliminating power struggles and handling disruptions quickly Establishing an effective environment for learning Using natural and logical consequences to support your rules Conducting proactive focused parent conferences New research and techniques for supporting special needs children With its new focus on younger students and special tools for handling strong willed children this edition offers schoolteachers the tools they need to gain control of their classrooms respectfully and effectively Discipline with Dignity Richard L. Curwin, Allen N. Mendler, Brian D. Mendler, 2018-04-16 In this revised and updated 4th edition Discipline with Dignity provides in depth guidance for implementing a proven approach to classroom management that can help students make better choices and teachers be more effective Emphasizing the importance of mutual respect and self control the authors offer specific strategies and techniques for building strong relationships with disruptive students and countering the toxic social circumstances that affect many of them including dysfunctional families gangs and poverty Educators at all levels can learn The difference between formal and informal discipline systems and when to use each The role of values rules and consequences How to address the underlying causes of discipline problems that occur both in and out of school What teachers can do to defuse or prevent classroom disruptions and disrespectful behavior without removing students from the classroom Why traditional approaches such as threats punishments and rewards are ineffective and what to do instead How to use relevance teacher enthusiasm choice and other elements of curriculum and instruction to motivate students How to reduce both teacher and student stress that can trigger power struggles With dozens of specific examples of student teacher interactions Discipline with Dignity illustrates what you can do and not do to make the classroom a place where students

learn and teachers maintain control in a nonconfrontational way The goal is success for all in schools that thrive
