Something Borrowed, Something You Vi Keeland, 2025-03-18 No Strings Attached meets Me Before You in SOMETHING BORROWED SOMETHING YOU a slow burn swooning romance from 1 New York Times bestseller Vi Keeland My relationship with Hunter Delucia started backwards We met at a wedding him sitting on the groom s side me sitting on the bride s Stealing glances at each other throughout the night there was no denying an intense mutual attraction He suggested we explore the chemistry sparking between us His blunt dirty mouth should ve turned me off But for some crazy reason it had the opposite effect on me We ended up back in my hotel room The next morning I flew home leaving him behind in California with the wrong number I thought about him often but after my last relationship I d sworn off of charming cocky gorgeous as sin men A year later Hunter and I met again Our attraction hadn t dulled one bit This time he demanded a real phone number So I left him with my mother s She could scare away any man with her talks of babies and marriage But the following week he rang the bell at Mom s house for Sunday night dinner The crazy gorgeous man had won over my mother and taken an eight week assignment in my city He proposed we spend that time screwing each other out of our systems Eight weeks of mind blowing sex with no strings attached It was just sex not love But you know what they say about the best laid plans Formerly published in a different form under the title Sex Not Love in 2017 *The Army Lawyer*, 1998 Something

a popular tool amongst businesses seeking to make an impact in a competitive world Yet the scramble to achieve a presence among experience providers has led many companies to design and implement experiential marketing without integrating it with their overall marketing strategy These companies often end up dissatisfying their customers rather than delighting them This research anthology investigates different angles of experiential marketing The 16 chapters are organised in six sections The first section considers whether memorable customer experiences result from the use of traditional marketing practices perhaps implemented more effectively than previously or require entirely new practices with new foundations that turn companies into experience providers Section two details ways businesses seek to build brands through putting experiential marketing into practice while section three asks whether there are general principles that can be applied to the design of customer experiences which ensure successful outcomes whatever market you may operate in Section four examines how companies manage their customer experiences once they have made the strategic decision to provide them and section five looks at methods available to evaluate the success of these customer experiences Experiential marketing changes everything claim the management gurus but is it really so significant that not joining this race is dangerous The last section of the book offers a much needed critique of experiential marketing
