**Policy and Opinion in the Gulf War** John Mueller,1994-07 The Persian Gulf crisis may well have been the most extensively polled episode in U S history as President Bush his opponents and even Saddam Hussein appealed to and tried to influence public opinion As well documented as this phenomenon was it remains largely unexplained John Mueller provides an account of the complex relationship between American policy and public opinion during the Gulf crisis Mueller analyzes key issues the actual shallowness of public support for war the effect of public opinion on the media rather than the other way around the use and misuse of polls by policy makers the American popular focus on Hussein s ouster as a central purpose of the War and the War s short lived impact on voting Of particular interest is Mueller s conclusion that Bush succeeded in leading the country to war by increasingly convincing the public that it was inevitable rather than right or wise Throughout Mueller author of War Presidents and Public Opinion an analysis of public opinion during the Korean and Vietnam wars places this analysis of the Gulf crisis in a broad political and military context making comparisons to wars in Panama Vietnam Korea and the Falklands as well as to World War II and even the War of 1812 The book also collects nearly 300 tables charting public opinion through the Gulf crisis making Policy and Opinion in the Gulf War an essential reference for anyone interested in recent American politics foreign policy public opinion and survey research

*Sales Psychology 101: Paradaptive Intelligence ~ The Grand Unifying Theory of Adaptation, Consumer Behavior and Sales.* Scott Syverson,2018-03-19 Sales Psychology 101 Paradaptive Intelligence The Grand Unifying theory of Adaptation Consumer Behavior and Sales introduces the Paradaptive Intelligence model to the business world by examining the most basic of activities a transaction Transactions require two things the something and a person This revolutionary theory examines explains and organizes all human decisions and behaviors by the emotions that control them Through this model you will learn that emotions are the engine of adaptation and are incredibly precise instruments they occur in a precise order and each must be satisfied in a unique and specific way This same process also controls the formation of relationships Users of the Paradaptive Intelligence model will be able to predict the DNA encoded behaviors of prospects with 100% accuracy across 98% of the earth s population This makes Sales Psychology 101 the most important book written on business in the

last 200 years and the next 500      **Waves of Discontent** Jacob F. H. Smith,2025-08-21 After a period of relative calm in congressional elections prior to 2006 America has experienced a series of highly competitive volatile national elections Since then at least one of the US House US Senate and presidency has flipped party control often with a large House or Senate seat swing with the exception of the 2012 election In Waves of Discontent Jacob F H Smith argues that a pervasive feeling of displeasure in the American public has caused this increase in electoral volatility Conducting statistical analyses of a wide array of surveys Smith found that these feelings of displeasure translate to lower turnout among voters from the president s party and a higher percentage of independents voting for the other party Subsequently he conducted a content analysis of New York Times articles to look at the connection between unrest in American society and seat swings in congressional elections even before the existence of polling Examining the consequences of volatility in congressional elections reveals that political amateurs are more likely to win in wave years than in normal years Based on this data Smith presents a new theory about the policy process the policy doom loop in which frustration among voters at both the inability of Congress to pass policy and anger at policies that actually do pass results in even more churn in congressional elections Waves of Discontent offers some suggestions to promote constructive policymaking efforts in Washington to reduce frustration in the electorate
