The Jews in Rome, Volume 1 (1536-1551) Kenneth Stow, 2022-07-04 This volume recreates through a register and apt citation the first thousand acts of an archive known informally as the *Notai ebrei* a collection of as many as 10 000 such acts drawn by Roman rabbis between 1536 and 1640 The acts in this volume cover the twenty years prior to the establishment of the Roman ghetto by Paul IV in 1555 A lengthy introduction reveals these acts as a mirror of Jewish social and cultural life including such matters as litigations broken engagements adoption synagogal disputes as well as rentals contracts and apprenticeships Most noteworthy is the ownership of property by women This encouraged and reflected the treatment of both men and women as individuals Indeed individualism which also promoted the amalgamation and ethnic levelling of a society that after about 1500 was notably one of immigrants was this society s most salient characteristic

The Study of Judaism, 1976 Judaism is among the least known of the religious traditions of the West and is also among the most difficult to seek out and study The bibliographical essays before us do much to improve matters They are not simply lists of books but thoughtful essays on important problems in the study of Judaism They address serious students in the field of religion who are not experts in the study of Judaism They recount what comes first and what comes afterward what may be important in one way what in another Their collective testimony is not that the study of Judaism is too complex for the nonspecialist but that it is a very serious and engaging undertaking
