## Youngest One:

*Stories of God* Rainer Maria Rilke, 2003-06-10 Composed in 1899 when Rilke was only twenty three the interconnected tales of Stories of God were inspired by a trip to Russia the young poet had made the year previously It is said that the vastness of the Russian landscape and the profound spirituality he perceived in the simple people he met led him to an experience of finding God in all things and to the conviction that God seeks to be known by us as passionately as we might seek to know God All the great themes of Rilke s later powerful and complex poetry can be found in the Stories of God yet their charming folktale like quality has made them among the most accessible of Rilke s works beloved by all ages

*Kathlamet Texts* Franz Boas, 1901      **Reclaiming the Disabled Subject** , 2022-03-30 Mired inside its rather archaic comprehension as a medical phenomenon disability for a long time now has been ignored as a marker of identity The world has only been busy in rectifying the absences that have ostensibly dis abled rather than accepting such impaired existences as human beings themselves The volume intends to reclaim the representations of disability and present narratives that do not just use the figure of the disabled as a means to an end It includes translation of 17 disability centric short stories from multiple Indian languages into English Further it uses these stories as illustration to test and develop new theoretical formulations concerning disability and the disabled What grants the proposed work its uniqueness is in other words not only the translations of the erstwhile lost stories of disability but also the use of these stories towards the formation of theoretical paradigms to move forward the project of Disability Studies The volume shows interrogates and problematizes the affect that impairment and disability has on those who are abled It presents how the normal human being approaches the disabled and interacts with them All in all owing to its academic engagement with disability as a phenomenon and within a narrative this work intends to take the role of a resource book that will find ready use in the newly emergent multidisciplinary field of Disability Studies and will be of great significance to India and the world at large especially since Literature has a major role to play in this field Not only then does it present different disability narratives to the world but through their academic interrogation also allows researchers and academics especially in India to form the theoretical enhancements in Disability Studies that both our country and the world desperately require      Tobacco Among the Karuk Indians of California John Peabody Harrington, 1932      **Composition of California Shellmounds** Edward Winslow Gifford, 1916      **Original Odžibwe-texts** , 1913      **Lippincott's Monthly Magazine** , 1893      The Traditional Games of England, Scotland, and Ireland Alice Bertha Gomme, 1898      **Annual Report** Saint Louis (Mo.).
