The End of the Concept of "Time"! Russell Moon,1995

New Directions in the Russellian Theory of Time Emiliano Boccardi,L. Nathan Oaklander,Erwin Tegtmeier,2024-12-26 The main debates in the philosophy of time have centred on whether A theory with events ordered by pastness presentness and futurity or B theory ordered by earlier than or later than are equally fundamental Emiliano Boccardi L Nathan Oaklander and Erwin Tegtmeier instead uphold the Russellian theory or R theory and consider not only the fundamental differences but also its superiority They argue McTaggart s misinterpretation of Russell has led to a false dichotomy between the A and B theories while exploring the connection between temporal relations temporal facts and time In defence of the R theory they argue how it offers a metaphysical explanation of the nature of time in addition to investigating whether ontological theories of time can be considered from a moral or existential point of view Using an ontological approach this volume clarifies what is mistaken about both theories can only be resolved by adopting a Russellian philosophy reaching beyond the A theory vs B theory debate
