Orvin,1995 As we all know adolescence is a time of growth For many it is an emotional time filled with excitement happiness fear rebellion and confusion During adolescence roles are mapped out and identities are established Although for centuries society has recognized the effect adolescence has on children it has all too often failed to discuss its effect on parents How are parents performing during this time Many parents worry about not doing enough but are they doing too much How is this struggle affecting their lives Written for parents *Understanding the Adolescent* illustrates just what it is the adolescent is attempting to do and why he or she must Dr Orvin seeks to focus not only on the child s growth during this turbulent period but also on the parents He addresses core issues such as how parents can best help their children spouses and themselves With an intended audience including parents teachers counselors and clergy Dr Orvin has written an easy to read easily understood text Readers will come to recognize that despite the tumult caused by adolescence it is for the most part a healthy and natural process And for exceptional cases in which families or adolescents become dysfunctional Dr Orvin has drawn on more than 30 years of experience to offer help and guidance in getting families back on track      *Understanding Adolescence* James Frederick Adams,1970
